PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

Juaben Municipal Assembly is one of the 43 Administrative Districts in Ashanti Region. It was carved out from Ejisu-Juaben Municipal Assembly. It was established by LI 2296 in 2017 and was inaugurated on March 15, 2018. It has two committees and seven sub- committees per the Local Governance Act, 2016(Act 936) fully functional.

The Juaben Municipal lies within Latitudes 1° 15'N and 1° 45'N and Longitude 6° 15'W and 7° 00'W. It occupies a land area of 364,674 hectors (365 km²). The Municipality lies in central part of the Ashanti Region and shares boundaries with six (6) different Districts in the Region. They are Sekyere East and Afigya Kwabre to the North-East and North-West respectively; Ejisu to the West; Bosomtwe to the South West; Asante Akim South to the East and Kumasi Metropolitan Assembly to the North. The location of the Municipality at the heart of the region and its span in terms of land area puts the Municipality in a good position when it decides to go into joint District development initiatives.

Population Structure

The 2022 population census for the Municipality is 63,929 at a growth rate of 1.9%. There are males 31,203 (48.8%) and 32,726 (51.2%) females. Thirty-five percent (35%) of the population make up the urban population and sixty-five percent (65%) make up the rural population. In spite of the dispersed nature of the settlements in the Municipality, the population appears dense at the northern part of the Municipal. This is as a result of its proximity to the three (3) major towns, namely Ejisu, Effiduase and Kumasi. Thirty-five (35%) of the population is currently living in urban areas of the municipality namely Juaben, Adumasa, Achiase and Nobewan. Other areas such as Yaw Nkrumah, New-Bomfa, Kubease, Dumakwai, Duampompo and Atia are communities that have enormous prospects given their current location, population and other intervening factors.

Vision

To become a model Municipality in Ghana that ensures judicious utilization of mobilized resources through good governance practices and quality service delivery.

Mission

To enhance the quality of life of the people through the promotion of local economic growth and provision of standard social service in partnership with stakeholders.

Goals

The Development goal of the Juaben Municipal Assembly is to ensure socio-Economic Growth.

Core Functions

The core functions of the Juaben Municipal Assembly are outlined below:

- Exercise political and administrative authority in the municipality
- Be responsible for the overall development of the municipal
- Formulate and execute plans, programmes and strategic

District Economy

Agriculture

The main types of agricultural activities in the Municipality are cash/food crop production and livestock and fish farming.

CROP FARMING

The table below highlights that most of the dwellers involved in agriculture within the Municipality. Some farmers take advantage of the huge potential market at Ejisu and Kumasi to cultivate food (maize, plantain, rice, and cocoyam), tree crops and vegetables like pepper, tomatoes, garden eggs, cabbage, carrots, cucumber, green pepper and okra on relatively large scale. Only a small portion of agricultural produce such as cassava and maize are processed into gari and corn dough respectively.

| | Tot | al | Urb | an | Rural | | |
|---|--------|---------|--------|---------|--------|---------|--|
| | Number | Percent | Number | Percent | Number | Percent | |
| Total Household | 49,079 | 100 | 12,136 | 100 | 36,943 | 100 | |
| Households engaged in Agriculture | 19,531 | | 2,904 | | 16,627 | | |
| Crop Farming | 18,900 | | 2,734 | | 16,165 | | |
| Tree Planting | 78 | | 6 | | 71 | | |
| Livestock Rearing | 3,180 | | 383 | | 3,428 | | |
| Fish Farming | 21 | | 5 | | 16 | | |

The core mandate of the Agriculture Department is to ensure the promotion of sustainable agriculture and thriving agribusiness through research and technology development, effective extension services and other support services to farmers, fishers, processors, and traders to improve their livelihood. Land for farming activities in the Juaben Municipality is acquired through inheritance, renting and sharecropping. The arable land under cultivation is 53% of the total land size.

ROAD NETWORK

The total road network is 154.97km; Asphalt/Bitumen - 43.91km, Gravelled Road - 14.60km and Earth Road - 96.46km.

Road networks play an important role in facilitating the transportation of agricultural produce and people to and fro in the Municipality. Roads play a key role in access to services and facilities.

The Municipality is characterized by the section of Kumasi-Accra Road which extends from Kubease, through towns such as New Koforidua, Duampompo, Nobewam and ends at the boundary with Asante Akim (Konongo). The other major road within the Municipality is the one that extends from Ejisu connecting communities such as New Bomfa, Yaw Nkrumah and Juaben to Effiduase. The rest of the roads are mainly feeder roads linking farming communities such as Odoyefe, Atia, Esaase, Nkyerepoaso to some of the major towns including Juaben and Boankra of the Ejisu Municipality.

ENERGY

The main sources of power in various households include national grid, solar, flashlight and kerosene lamp. About 69.4% households depend on national grid from the Electricity Company of Ghana for lighting for domestic and commercial use. Also, 16.5% households use flashlight and 11.5% use kerosene lamp.

• HEALTH

There are two (2) hospitals, two (2) health centres, three (3) clinics and three (3) CHPS compounds including one run by Christian Health Association of Ghana (CHAG) in the Municipality. The Juaben Government Hospital serves as referral point for healthcare delivery of which other facilities cannot render services to patients.

EDUCATION

The Municipal has 143 Basic schools, 113 public and 30 private schools with total enrolment of 24,207 pupils. The Municipality has only two (2) Senior High Schools namely Juaben Senior High, Juaben and St. Sebastian Senior High School, Adumasa.

• MARKET CENTRES

There are two (2) major market days in the Municipality namely Juaben (Tuesday) and Boamadumasi (Thursday). The road network from other communities to the Juaben market is fairly good. The road connecting Boamadumasi to Duampompo (Accra-Kumasi) is bad and extremely difficult to use during the rainy season. This leads to increased fares by drivers who ply the roads on especially market days. Farmers are unable to transport farm produce to the market centres and sell at farm gate prices.

WATER AND SANITATION

The main sources of potable water in the Juaben Municipality are small water systems at Atia, Juaben and Nobewam, 38 mechanized boreholes, 49 hand-dug pumps and 4 hand dug wells municipal-wide. According to the CWSA water coverage in the Municipality stood at 56.1% whilst the regional coverage stood at 72.6%. WATSAN committees have been formed in various communities in the Municipality.

There are 29 public toilets, that's five (5) water closets, fourteen (14) KVIPs and eleven (11) pit latrines. Within the Juaben Municipality, crude dumping is the dominant method of solid waste disposal. Ten (10) skip containers in Juaben, two (2) skip trucks. However, the municipality is currently without a liquid waste management plant, hence relying on other Assemblies.

TOURISM

The tourism sites in the Municipality are undeveloped Kubease Butterfly Sanctuary and Bobiri forest Reserve.

Key Issues/Challenges

- I. Inadequate access to education and health facilities
- II. Inadequate access to credit facilities for SMEs
- III. Inadequate market infrastructure
- IV. Inadequate access to potable water
- V. Inadequate security infrastructure
- VI. Poor road network and quality
- VII. Inadequate employment opportunities
- /III. Poor revenue performance
- IX. Inadequate access to improved institutional and household toilet facilities

Key Achievements in 2023

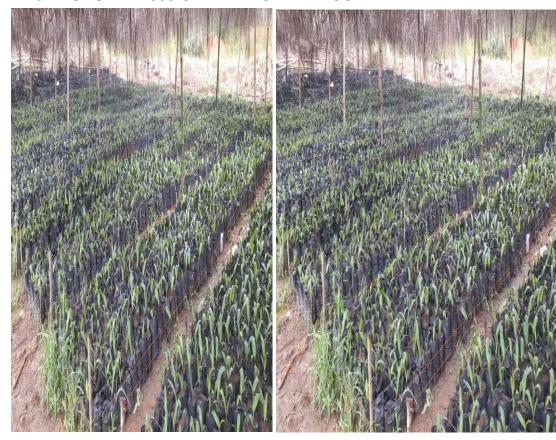

1. SUPPLIED 10,000 PALM OIL AND COCONUT SEEDLINGS TO FARMERS

2. 28 PWDs ASSISTED

3. NURSED 24000 OIL PALM SEEDLINGS

4. CONSTRUCTED 10-SEATER WC TOILET AT BOAMADUMASE

5. CONSTRUCTED 1 NO. 3-UNIT SELF-CONTAINED TEACHERS QUARTERS AT ODOYEFE

6. DRILLED AND MECHANIZED 3 NO. BOREHOLES AT DUMAKWAI, ABETINIM AND BOATENGKROM

7. SUPPLIED 100 TEACHERS' TABLES AND CHAIRS

Revenue and Expenditure Performance

Juaben Municipal has various revenue streams which includes the Internally Generated Funds (IGF), District Assembly Common Fund (DACF), Government of Ghana (GoG), District Assembly Common Fund Response Factor Grant (DACF-RFG), Modernization of Agriculture (MAG), National Petroleum Authority (NPA) and other Donor Support. Expenditure on the other hand, are expenses made by the Assembly on activities done in the Municipality. The expenditures are on Compensation, Goods and Services and Capital Expenditure.

Revenue Mobilization Strategies

These are recommendations for improving revenue generation in the Municipality.

Revenue Management System:

1. Billing Systems and Procedure:

- I. Bills should be issued promptly and at regular time intervals to alert the rate payer that a particular bill is due. It will also help the rate payer to make provision in his budget in anticipation of that bill.
- II. Bills should be checked for errors before being sent out, thereby removing any doubt about the accuracy of bill.
- III. Bills which have been previously prepared based on old values, particularly in case of property rates, should be scrutinized to ensure the current values are taken into consideration. This will eliminate or reduce offending bills and the incidence of angry protest from landlords.
- IV. Efforts must be made to get absentee landlords through a tenant or some other person who knows him or by post.
- V. A reliable data on all revenue sources is prerequisite for preparing of bills to exploit the full potential of every revenue source. The ultimate solution lies in a computerized billing system based on a computerized database. As far as possible, therefore, the billing system should be computerized for efficiency and effectiveness.
- VI. Regular Assembly public education to explain to the public, the Assembly's achievements i.e., plans, processes, progress, prospects and problems to encourage payers to pay rate willingly to JMA.
- VII. All rate defaulters must be promptly prosecuted. The other law enforcement agencies such as the police and the judiciary should be contacted to offer their support in this area.
- VIII. F&A committee recommends that, 25% savings from the weekly revenue generated should be earmarked for capital projects & salaries. That is 20% should be saved for capital projects (to meet DPAT and Ministry of Finance requirement) while 5% be reserved for salaries.

2. Collection Systems and Procedure

- The revenue section must be recognized, and the position of the head be upgraded to attract qualified people into senior positions of the proposed department.
- II. Design training programmes for Revenue Collectors to upgrade their efficiency and effectiveness.
- III. Revenue Collectors should be provided with uniforms and protective clothing.
- IV. Annual award scheme for the most efficient and effective revenue collector(s) should be institutionalized.
- V. Cash collections should be lodged promptly into JMA bank account.
- VI. Small safes should be installed at the Zonal Council Offices.
- VII. Insurance should be provided for cash in-transit.
- VIII. Develop template for collectors on which they can easily record their daily collections.
- IX. Erect revenue barriers at the appropriate points for ease of collecting conveyance fees.
- X. Encourage private collection especially by identifiable groups.
- XI. Provide warehouse for the big markets where necessary.
- XII. More officers must be employed to enhance revenue collection.
- XIII. A sustained rate-payer-awareness campaign should be vigorously embarked upon to reduce and inform ratepayers about all matters concerning rate payment. In this regard, the assistance of Civil Society Groups, NGOs, Traditional Rulers, Trade Association and NCCE can be solicited.
- XIV. To make it easier for the public to pay approved fees and other charges, the Assembly has decided to create three (3) additional revenue points. These are located at Nobewam, Achiase and Juaben, and will be opened for business during the weekends.

3. Monitoring and Control

The following should be closely monitored:

- I. Use of value books
- II. 2. Daily cash takings
- III. Accounting for cash revenue generation

- IV. Periodic analysis of revenue generation
- V. Bank reconciliation
- VI. Audit trails

Use of Value Books

It is recommended that only the Municipal Finance Officer (MFO) should approve requisition for valuable books initiated by the Revenue Superintendent. The MFO prepares the L.P.O for the purchase from the Accountant General's Department. Stocks are kept under the control of the MFO or his appointed accounts officer. The Revenue Superintendent prepares a store requisition following request for books from revenue collectors. The MFO approves the requisition to authorize the issue of the value books to the Revenue Superintendent, who in turn supplies the books to revenue collectors as requested.

Finally, the details of these transactions are recorded in a register, which is to be maintained by MFO for that purpose.

Daily Cash Takings

The revenue collectors prepare a summary of daily cash takings, which have been reconciled with receipts and tickets. He submits the summary together with the amount to the Revenue Superintendent who issues him with a receipt for acknowledgement.

The Revenue Superintendent pays and lodges the cash into the Municipal Assembly's bank accounts. Thereafter, he prepares summaries of all monies he receives from Revenue Collectors.

Finally, he submits his summary of totals, plus the separate summaries from revenue collectors together with the pay-in-slip to the cashier at the JMA.

Cash Receipt by Cashier

The cashier is expected to reconcile the bank statement with the cashbook and the general ledger. He then prepares a bank reconciliation statement to be submitted to the MFO, the head of Revenue Section, and the Internal Auditor. The reconciliation statement is to be prepared monthly.

Revenue Database

The lack of an adequate database has already been identified as a serious constraint to effective revenue mobilization. There is a need therefore to improve the database system if revenue collection is to be stepped up.

The first step in the revenue database is to develop or update the rate registers. All rate registers should be developed or updated in line with the recommendations in the Standard Revenue Improvement Action Plan (RIAP) Manual.

The Recommended Rate Registers are as follows:

- i. Register of Residents (Nominal Roll)
- ii. Register of Properties or Houses
- iii. Register for Trade Licenses
- iv. Register of Fee Payers
- v. Register of Revenue Sources
- vi. Register of Revenue Facilities
- vii. Valuation List (Register of House and Building)

Register of Residents (Nominal Roll)

The register records the particulars of all persons who reside or own properties in the Municipality. It provides the basis for collecting basic rates. It must be updated whenever the voters register is updated.

Register of Licenses and Fee Payers

This records the details of all sources and their respective rates chargeable, which will be subject to change from time to time.

Valuation List

A reliable valuation list is a prerequisite for improving revenue from property rates. It provides correct and up to date information on all ratable properties, their values and rate imposts to facilitate billing, collection, monitoring, and control of property rates. This is a specialist job and should be assigned to the Land Valuation Board (LVB) or a private valuer. The cost of carrying out an Actual Valuation exercise is high. The Municipal Assembly should, as an interim measure, seek assistance from the LVB to

review the valuation list by means of Indexing Method. This method is cheaper but can provide a fair valuation list. The LVB is ever prepared to undertake this exercise provided the MA will pay for materials, transport allowance and some extra duty allowance for the technical staff. It is therefore recommended that the MA accepts this offer and commissions the LVB to undertake the assignment.

Training of Revenue Staff

Like the staff of all other departments, the revenue collectors should be given continuous on-the-job training, coupled with regular attendance at workshops to help sharpen their skills and raise their productivity (that is efficiency and effectiveness). The training needs are summarized below:

- Understanding the Local Government Act
- Revenue collection system and procedure
- Handling of value books
- Basic book-keeping
- Revenue monitoring and control procedures—the role of the revenue collector
- Understanding rate payers' behaviour
- Basic human relations
- Communicating effectively with people
- Motivation of revenue staff
- Ease of use of hardware and software for collection.

No organization can achieve its goals and objectives without proper motivation of staff. The revenue staff can be motivated in several ways in addition to training. Providing collectors with protective clothing as well as work tools are part of ways to motivate them. This goes a long way in giving them a sense of identity and belonging. Another way to motivate them is to institute a periodic (monthly, semi-annually or yearly) performance awards system, including a cash award for excellent performance, provided the procedure is transparent.

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

Budget Programme Objectives

The objectives of this programme are as follows:

- I. Ensure full political, administrative, and fiscal decentralization.
- II. Boost revenue mobilization, eliminate tax abuses and improve efficiency.
- III. Improve local government service & institutionalize District level planning& budgeting.

Budget Programme Description

The Management and Administration programme is responsible for the provision of support services, effective and efficient administration, and the general organization of the Assembly. It coordinates all departments for effective implementation of the decentralization policy and programmes for efficient service delivery. The Division is mainly responsible for general administration, planning, budgeting, finance, revenue mobilization, legislation, and human resource functions.

The main units involved in the delivery of the programme are the Central Administration, Finance Division, Planning Unit, Budget Unit, Human Resource Development and Management, Procurement Unit and Internal Audit Unit.

A total number of forty-four (44) staff are involved in the delivery of the programme. They include Administrators, Development Planners, Budget Analysts, Accountants, Revenue Collectors, Internal Auditors, Procurement Officers and other support staff (i.e., Executive officers, labourers, cleaners, and drivers). The Programme is funded through the Assembly's Internally Generated Funds, transfers from Government of Ghana and Donor Partners.

This programme involves five (5) sub-programmes which seeks to:

 Initiate projects and programmes considering the needs and aspirations of the people.

- Manage the finances of the Assembly and provide necessary logistics for effective management.
- Ensure compliance and continuous improvement in the internal control process.
- Promote human resources planning and development for effective and efficient performance of the functions of the Assembly.
- Plan, coordinate, monitor and evaluate the efficiency and effectiveness of the performance of the Assembly.

SUB-PROGRAMME 1.1 General Administration

Budget Sub-Programme Objective

- To coordinate the operations of the department of the Assembly effectively and efficiently.
- Ensure full political, administrative and fiscal decentralization.
- To provide effective support services.

Sub-Programme Description

This sub-programme coordinates the operations of the Assembly and manages all sections of the Assembly including Records, Estate, Logistics and Procurement, Accounts, Stores, Security and Human Resources Management. The operations of the sub-programme are:

PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

Budget Programme Objectives

- I. Enhance capacity to mitigate impact of disasters, risk and vulnerability.
- II. Reverse forest and land degradation.

Budget Programme Description

This environmental management programme is responsible for managing and preventing disasters, risk and vulnerability, as well as reverse forest and land degradation. The programme is delivered by the Disaster Prevention Division, which collaborates with other agencies such as the Fire Service Unit to deliver the expected output. The programme will deliver the following major services:

- Organize public disaster education campaign programmes to create and sustain awareness of hazards of disasters.
- Education and training of volunteers to fight fires including bush fires, or take measures to manage the after-effects of natural disasters.
- Assist in post-emergency rehabilitation and reconstruction efforts in the event of disasters.
- In consultation and collaboration with appropriate agencies, identify disaster zones and take necessary steps to educate people within the areas, and prevent development activities which may give rise to disasters in the area.
- Post-disaster assessment to determine the extent of damage and needs of the disaster area.
- Coordinate the receiving, management and supervision of the distribution of relief items in the District.
- Inspect and offer technical advice on the importance of fire extinguishers.

The Disaster Management and Prevention Department will be responsible in executing the programme. There are twelve (12) officers to deliver this programme.

SUB-PROGRAMME 5.1 Disaster Prevention and Management

Budget Sub-Programme Objective

- I. To enhance the capacity of society to prevent and manage disasters.
- II. To improve the livelihood of the poor and vulnerable in rural communities through effective disaster management, social mobilisation, and income generation.

Budget Sub-Programme Description

This Environmental Management Programme is responsible for managing and preventing disasters, risk and vulnerability.
