• Agriculture

The main economic activity of the District is agriculture which employs 46.4% of the active population. Major cash and food crops cultivated are Cocoa, Cassava, Cocoyam, Plantain, Rice and Vegetables. The Assembly has inaugurated a committee to spearhead the activities and programmes to be taken under the One –District- One- Factory under the Presidents Special Initiative. Proposals for the establishment of rice cultivation, maize production, cassava processing, vegetable planting in large quantities, citrus for juice etc. have been received by the committee. The District Implementation Committee (DIC), inaugurated in 2017 has coordinated the activities of the four (4) Business Promoters which was approved by the Ministry of Trade and Industry for this District. The Business Promoters and the operational areas include.

- 1. Rice production and processing- Western Deedew Group
- 2. Youth in Poultry Production
- 3. Soya Bean processing
- 4. Citrus Production and Processing

Among the four (4) businesses, one has started production on small scale while the rice processing factory has begun supply of packaged rice in large quantities to household and commercial consumption.

Under planting for food and jobs, the Agriculture Department has embarked on yield studies on Rice and Maize.

In the year 2022, Maize Farmers under the Planting for Food and Jobs were able to increase yield to 1,954.8Mt whilst Yield for Rice Farmers under Planting for Food and Jobs stood at 1,726.8Mt.

The following subsidized Farms inputs were distributed to farmers as of August 2023 namely,

- Supply of 206kg of Fertilizers (NPK)
- Supply of 103kg of Fertilizers (UREA)

Livestock is another major source of income for some farmers in the Sekyere South District. Most farmers rear animals on small scale for their own consumption and for commercial purposes. However, in the Zongo communities, livestock is a full-time occupation that produces animals such as: cattle, goats, and sheep for commercial purposes. Besides, poultry, grass cutter, snails and pig farms are some of the agricultural occupations in the district.

Road Network

The District has a total of **175.8 km** Road Network. **45km** of the roads has been **Engineered** (Highways) which stretches from Asonomaso Junction through Agona to Jamasi. The remaining **130.8km** are feeder roads out of which **98km** has been **semi-engineered**.

• Energy

94% of the communities in the District are connected to Electricity. This easy accessibility to electricity creates enabling environment for economic activities that need power to operate across the district without much difficulty.

However, there are some communities; especially the remote and smaller communities that are not connected to electricity currently but uses solar panels. Nevertheless, efforts are being made to ensure that all communities in the District get access to electricity through the rural electrification program.
