PROGRAMME 2: SOCIAL SERVICES DELIVERY

Budget Programme Objectives

- Enhance inclusive and equitable access to, and participation in education at all levels
- Ensure sustainable, equitable and easily accessible healthcare services
- Works in partnership in the communities to improve their well-being through promoting social development with equity for the disadvantaged, the vulnerable, persons with disabilities and excluded.

Budget Sub-Programme Description

Social Service Delivery is one of the key Programmes of the Assembly. This programme seeks to take an integrated and holistic approach to development of the District and the Nation as a whole. There are Four sub-Programmes under this Programme namely; Education and Youth Development, Public Health delivery, Social Welfare and Community Development and Environmental Health and Sanitation Services.

The Education, Youth and Sport Department of the Assembly is responsible for Preschool, basic education, youth and sports, development or organization and library services in the district. The department therefore assists the Assembly in the formulation and implementation of programmes in such areas of education and youth development.

The Ghana Health Services in collaboration with other departments assist the Assembly to deliver specific health care interventions by providing accessible, cost effective and efficient health service at the primary and secondary care levels in accordance with approved national policies by ensuring prudent management of resources.

The Social Welfare and Community Development Department assists the Assembly to formulate and implement Social Development policies within the framework of national policy. Extreme poverty continues to work against the economic gains that Ghana has chalked over the past two decades. It is estimated that about 18% of Ghanaians live under

extreme poverty conditions. This means that they are neither able to afford daily subsistence requirement nor afford education and basic health for themselves and their children.

This phenomenon perpetuates generational poverty. In order to ensure equitable distribution of national resources and mainstreaming of the extremely poor, Government developed and started implementing the National Social Protection Strategy (NSPS) in 2007. In Twifo Atti-Morkwa District, 542 households are benefitting from conditional and unconditional cash transfer under the Livelihood Empowerment Against Poverty (LEAP) Programme; a component of the NSPS. Extremely poor Older Persons above 65 years have been enrolled onto the LEAP and are entitled to unconditional cash transfer.

This Environmental Health and Sanitation Services delivery is carried out through provision and prudently managing comprehensive and accessible health services with special emphasis on primary health care at the district and community levels in accordance with national health policies.

The sub-programme also formulates, plan and implement district health policies within the framework of national health policies and guidelines to Promote and encourage good health, sanitation and personal hygiene;

The total number of personnel under this budget Programme excluding that of Ghana Health Services is Thirty-seven (37) making up of twenty-seven (27) Environmental Health staffs, nine; making up of (9) Social Development staffs and One (1) Public Health Officer.

Challenges:

The major challenge with the Social services delivery programme is the government non release of Goods and Services transfer to the Social Development Department.

- Obsolete administrative and office furniture and equipment for the Department of Social Welfare and Community Development.
- Inadequate teaching and learning materials
- inadequate furniture for conducive teaching and learning
- Poor infrastructure in the educational sector.
- Inequitable access and deployment of teachers.
- Attitude of parents towards teachers who disciplines pupils and Students
- Absenteeism and Attitude of teachers who reside away from their place of work
- Lack of adequate equipment for Sanitation Health staff to undertake their activities.
- Inadequate health facilities and Obsolete equipment
- Inadequate logistics for the Programme as a whole
- Poor Patient to nurse and doctor ratios
- Untimely release of funds by the government to Decentralized Departments
- Attitude of clients and health providers at the Health facility centres.

In carrying out this sub-programme, funds would be sourced from GoG, DACF and NGO support. The community, development partners and departments are the key beneficiaries to the sub-programme.

Challenges

Challenges in delivering the sub-programme include the following;

- Poor registration and documentation of school lands leading to encroachment of school lands.
- Inadequate and late release of funds. This leads to wrong timing of operations and projects thereby affecting implementation of projects and operations.
- Poor and inaccessible road networks hindering monitoring and supervision of schools.
