NARRATIVE STATEMENT

1.0 INTRODUCTION

Agotime –Ziope District was established by legislative instrument (LI 2080) of Parliament in 2012 with the split of the then Adaklu- Anyighe District into Agotime –Ziope and Adaklu District. Its capital is Agotime –Kpetoe.

1.1 PHYSICAL FEATURES

Location and Size

Agotime –Ziope District Assembly shares boundary with the Republic of Togo to the East; Akatsi North and Central Tongu District to the south and the Adaklu District to the west and north. The district covers a total land area of about six hundred and thirty seven kilometre square (637km²).

1.2 CLIMATE

The district has a mean monthly temperature ranging between 22°C and 32°C in the rainy season. However, average temperature during the dry season is 37°C. While the minor season starts from August to November. The dry season, which is dominated by the harmattan winds, extends from December to February in the district and records a value of 20.1mm in December.

1.3 POPULATION (STRUCTURE)

Agotime –Ziope District has a population of 34,456 (2010 Population and housing Census), the females constitute about 54.20% whiles the males constitute 45.8%. The most densely populated areas are Kpetoe, Ziope, Afegame and Akpokope. The average household size in these settlements is 4.8%.

1.4 DISTRICT ECONOMY

1.4.1 Agric

The most dominant economic sector in the district is agriculture which employs about 70 percent of the labour force. The district is well known in the region for the production of tomatoes and maize. Other major food and tree crops produced in the district are rice, sweet potatoes, yam, cassava, okro, cowpea, groundnut, pepper, and vegetables. Maize and cassava are the main staple foods and are therefore grown by majority of farmers across the district. Maize production is mostly done by the people of Ziope and yam by the people of Agotime.

1.4.2 Roads

The total road network in the district is about 165.1km. This is categorized into highways, consisting of the Ho-Kpetoe Ziope highway and feeder roads including engineered, partially engineered and unengineered roads. The only road with bitumen surface is the 41 km stretch of the major highway from Ho through Kpetoe to Aflao. In addition, about 3km of streets in the Kpetoe Township are tarred. The rest are either gravelled or bush tracks, accessible only during the dry season.

The conditions of the various categories of roads are as per details below.

Road Condition	Engineered Roads	Partially Engineered Roads	Un Engineered Roads	Bitumen Surface Roads
	Gravel Roads (D	OFR)		GHA
Total	63.8km	22.3km	38.0km	41.0km

1.4.3 Education

Education is one of the most important sectors of the District. Education Services is provided from a District Directorate in Kpetoe which is currently in a rented premise. The district has two second cycle institutions, 47 basic schools comprising 39 Primary schools and 16 Junior high schools. In addition, there are 5 private primary schools and 3 Junior high schools.

The Sector is divided into 5 circuits with a total enrolment of 9,409 Pupils at the Basic Schools and a Trained Teacher Population of 243 and a total teacher population of 379 at the Basic School.

1.4.4 Health

The health situation in the district has been improving over the years. Significant improvements have been made in the eradication and elimination of diseases such as polio, guinea worm and cholera, as no cases were reported in the district between the years 2009 to 2012. However, Malaria continues to be the largest contributor to the diseases in the district. Between 2009 and 2011, malaria constituted approximately 60% of all out patients cases recorded in the various health centers in the district with children under 5 years being the largest casualties.

Health infrastructure has also seen significant improvement over the years. Three Community Clinics have been constructed at Afegame, Akpokope and Wudzedeke. Similarly a laboratory has been completed at Ziope Clinic. The district health directorate has also created 5 CHPS compounds and they are all functioning.

1.4.5 Environment

The District's Environment is characterized by few natural tress and build-up areas. The natural Environment suffers from annual destruction from Bush fire and other resource losses such as tree felling for fuel wood and charcoal making. The persistent grazing of the fields by cattle also affects effective vegetation growth leaving some parts of the land with short grasses and compact ground as a result of persistent stepping of the ground. A major

environmental concern especially with respect to the rural area is the problem of competing land use pattern between cattle owners and farmers. There are been reported cases of destruction of farm land by grazing cattle each year and this often lead to petty conflicts with prospects of generating into large scale ones. This phenomenon needs to be resolved through effective land use planning which will demarcate land for each of the competing uses with clear boundaries.

Built Environment consists of dwelling places, roads, markets and other infrastructure. The environmental infrastructures for public uses include toilet facilities, storm drains and water facilities.

1.4.6 Tourism

Agotime-Ziope is a major tourism destination in the Region. The rich culture of the District which is displayed during the AgbamevorZa (Kente Festival) of the Agotime People serves as an important attraction for people all over the Country. The Week Long Festival comes in the first week of September and it is devoted to showcase Kente and exhibit varieties of the Agotime Kente.

1.4.7 TRADE AND COMMERCE

The major markets in the district are situated in Kpetoe and Ziope. The Kpetoe and Ziope markets have a five day cycle. These markets enable the people to move from one market place to another to buy and sell. The major foodstuffs that are normally found in the market include: tomatoes, okro, yam, plantain, cassava, among others. This is because about 90% of the rural folks are predominantly farmers. The district imports items from other districts. Apart from foodstuffs that are cheaper in the market. Other non –foodstuffs like cement, building materials among others are bought from Ho, Aflao, and Accra. In terms of tourism, Agotime is noted for high quality, kente weaving for export and for the Ghanaian market.

1.5 KEY ISSUES

In spite of the numerous strides at improving the livelihood of the people, a number of challenges still remained obstacles. These include:

- Poor educational infrastructure.
- Limited logistics for service delivery by the health and educational service.

- Poor road network.
- Low potable water coverage.
- Inadequate accommodation for staff.
- Limited capacity of the private sector to lead the district development process.

1.6 VISION

Our vision is to deliver efficient local government services to all citizens within the jurisdiction of the Agotime Ziope.

1.7 MISSION

The Assembly exists to ensure that lives of the citizenry are improved through harnessing of both human and material environment for networking and collaborating with local and foreign developmental partners for total upliftment of the district.

The table above shows the performance of internally generated funds from 2013 to the first half of 2015. The half year of 2015 recorded low turn-out of 21.96 percentage performance. All the revenue items performed abysmally with the exception of fees and Fines that recorded a 42.8 percentage performance level even though the projected 50 percent performance was not achieved.

Rates, land, rent and miscellaneous recorded a performance below 10% with miscellaneous and land recording 0.3% and 4.3% respectively.

These performance levels give a strong indication of inadequate revenue staff and other logistics for revenue mobilization.

Table 2.2 shows the revenue performance of the Assembly for all sources of funds. Out of a total of GH¢4,666,748.11 budgeted for the 2015 fiscal year, only a total of GH¢1,359,526.18 representing a 29.13% came to the Assembly as revenue. The table depicts only compensation of employees as the only source of fund that achieved a great performance of 49.51% followed by School feeding that recorded a 35.12%.

All the other source of revenue experienced a shortfall especially goods and services transfers to decentralized departments. This revenue performance is particularly due to the inadequate transfer of funds from central government. This trend is really putting a stress on the decentralized departments in the performance of their day to day activities.

The table above shows the flow of funds from Central Government to the Department of Agriculture, Social Welfare and Community Development, Works, and Central Administration. Compensation transfer from January to June has been constant but goods and services recorded only an actual of GH¢4165.28 representing only 8.34% of the estimated budget for 2015. This is due to the general downturn being experienced in the country currently.

Table 3.2 depicts the expenditure pattern of the Assembly with a particular emphasis on the half year of 2015. Out of $GH\phi4$, 666,748.11 budgeted, only an actual outturn of $GH\phi1$,359,526.18 was realised, representing a 29.1% performance. This shortfall is as a result of irregular inflow of funds from Central Government and other sources.
