PROGRAMME3: Infrastructure Development and Management

3.2 SUB-PROGRAMME: Physical and Spatial Planning

1. Budget Sub-Programme Objective

- Promote well-structured and integrated urban development and improve and housing development in the rural areas.
- Create open space and establish green belts across the country, especially in urban areas.

2. Budget Sub-Programme Description

The Spatial Planning sub-programme under the Infrastructure Delivery and Management programme of the Assembly seeks to promote well-structured development in all communities in the Municipality since nearly all economic and social development programmes and policies find expression in spatial terms.

The sub programme oversees the planning and management of physical development and growth of human settlements in the Municipality. It facilitates the preparation of spatial maps and land use plans, monitoring settlement growths and controlling development of human settlements.

These are achieved by ensuring the issuance of building permits and management of human settlements to ensure compliance with planning regulations of the Municipality.

This budget sub – programme also caters for the landscaping of both private and public residential areas, maintenance of green areas of the Assembly Buildings, maintenance of medians within the roads in the Municipality; especially the trees used in the landscape, tree planting, sale of horticultural produce to the general public, provide training and extension services to the public and establish recreational and leisure parks for the public.

Key challenges that affect effective implementation of projects and operations under this budget sub- programme are the absence of spatial map of the Municipality, inadequate logistics for field trips, non-availability of official vehicle for the unit, untimely release of funds to undertake planned operation and projects and poor accessibility to deprived areas in the Municipality due to the bad nature of most rural road network.

The Town and Country Planning unit and the Department of Parks and Gardens ensure effective delivery of the above services in the Municipality by involving members of the various communities and Traditional Authorities when required.

The operations and projects are funded by Government of Ghana (GoG), District Development Facility (DDF), District Assembly's Common Fund (DACF), Urban Development Grant (UDG) and Internally Generated Funds.

With a total staff strength of fifteen (15), all operations and projects are expected to be implemented for 2017 fiscal year.

PROGRAMME3: Infrastructure Development and Management 3.3 SUB-PROGRAMME: Public Works, Rural Housing and Water Management.

1. Budget Sub-Programme Objectives

• Facilitate equitable access to good, quality and affordable social services

2. Budget Sub-Programme Description

The infrastructure development and management sub-programme at the municipal level seeks to ensure an integrated and harmonized infrastructural development, ensure effective and efficient service delivery i.e. value for money, provide technical services for all works related activities (Buildings, Water, Feeder Roads etc.), facilitate implementation of policies on works and report to the Assembly, facilitate the provision of adequate and wholesome supply of water for the entire municipality, peg and demarcate all physical development prepared for all settlement within the municipality, prohibit unauthorized physical development (development control of structures) within the municipality etc.

To achieve the purpose of the sub-programme, the units or sections of the department i.e. Road, Building, Water and Sanitation sections are tasked to identify projects which are forwarded to the Assembly. The Assembly then prioritizes these projects and return same after stakeholder engagement with the interested parties. The projects are delivered through Action Plans prepared by the department.

Some of the supporting organizational units include the Central Administration of the Assembly, Ghana Education Service, Ghana Health Service, Town and Country planning Department etc. Others include regional offices such as Public Works Department, Feeder Roads, Rural Housing and Cottage Industry, Community Water and Sanitation which provide technical bus stopping.

The operations and sub-programme are funded by Government of Ghana (GoG) through the District Assembly's Common Fund (DACF), District Development Facility, (DDF), Urban Development Grant (UDG), Internally Generated Fund (IGF) and Non-Governmental Organizations.

Challenges towards smooth and effective implementation of sub-programme are:

- Untimely release of funds;
- Inadequate logistical support for project monitoring and supervision. Some of the critical tools include pickups, motorbikes, computers etc., and
- Inadequate office space to accommodate all the staffs of the department.

Total staff strength of twenty-one (21) will be deployed to implement the sub-project in the Municipality.

PROGRAMME5: ENVIRONMENTAL AND SANITATION MANAGEMENT

5.1 SUB-PROGRAMME: Disaster prevention and Management

1. Budget Programme Objectives

• Promote proactive planning to prevent and mitigate disasters.

2. Budget Programme Description

The Disaster Prevention and Management sub-programme seeks to achieve the following:

Gather Hazard and Disaster Data for preparation of hazard and disaster maps for disaster preparedness plan for the Municipality.

Form Disaster Volunteer Groups (DVGs) in the communities and Disaster Prevention Clubs (DPC) in Schools; train them to possess the skills & abilities to be local Disaster response Agents to provide early disaster warning signals. The DVGs will also be trained to initiate viable income generating projects to help reduce poverty.

Organize public education, sensitization forums and other awareness creation activities in all communities to increase disaster resilience and reduce vulnerability in society.

Organize the celebration of the International Day for Disaster Reduction (IDDR) in the 1st and 2nd weeks in October to help raise awareness and afford the Municipality the opportunity to be part of the celebrations.

Respond effectively to disasters and other emergencies as quickly as possible to reduce aftermath effects of disasters

Efficiently provide relief to disaster victims to enable them get back on their feet

Disaster data collection and assessment forms have been designed and will be administered by field (Zonal) officers during disaster incidents and on their hazard identification visits. Data collected will then be collated, analyzed and then used in creating preparedness plans as well as hazard and disaster maps.

Zonal officers are tasked with identifying communities with high communal spirit where DVGs can thrive. The idea will be sold to stakeholders who will then help mobilize volunteers for the groups. The Secretariat will hold discussions with selected schools and establish a mode of operation. Training sessions will then be carried out subsequently.

Awareness, education and sensitization campaigns will be delivered through community durbars, radio discussions, information center discussions and house to house visits

Working in conjunction with various stakeholders in disaster management, the IDDR will be organized on the internationally provided theme for the year.

Disaster Prevention and Management in the Municipality is the core responsibility of the National Disaster Management Organization (NADMO), with the support of the Nsawam Adoagyiri Municipal Assembly, Ghana National Fire Service (GNFS), Ghana Health Service (GHS), Ghana Police, Disaster Volunteer Groups (DVGs), National Ambulance Service, Ministry of Food and Agriculture, etc.

The operations and projects under this Sub-Programme are funded by Government of Ghana (GoG) - NADMO Head Office, District Assembly's Common Fund (DACF), Internally Generated Funds and Benevolent organizations.

Challenges to effective implementation of this sub-programme are untimely release of funds, poor road network to access disaster sites, lack of official vehicles and inadequate logistics for disaster support and programmes.

Total staff strength of Forty -five (45) will carry out the implementation of the Disaster Prevention and Management Budget sub-programme, in the Municipality.
