# 2. Budget Sub-Programme Description

Social Welfare and Community Development is a pre-requisite to economic development of any district. Thus in 2017, the department was allocated with an amount of GHC 108,339.00 to carry out its activities including compensation. The department provided data to the central government to financially assist the aged and the vulnerable in the district through "Livelihood Empowerment Against Poverty" (LEAP) Programme to enhance their resilience in these hard economic times thereby reducing the negative effects on the districts economic activities.

However, the programmes of the department were not fully implemented because of the challenges it faced and continue to face. Some of the challenges include lean budgetary allocation, lack of transportation to the rural communities, inadequate office space and other logistics.

During 2018 programme period, with staff strength of 25, the department's priority will be put in strengthening safety net programmes within the social protection laws to break the chronic poverty cycle. This will be done through creation of opportunities for the youth, withdrawal and reintegration of street children, gender issues, support to people living with disabilities (PWDs),

nurturing of sport talent and promoting cultural tourism. To undertake these activities, the subprogramme has been allocated with funds from GOG, IGF, and DACF amounting to GHC 471,704.00 excluding compensation.

#### 1. Budget Sub-Programme Objective

- To improve crop production and enhance food security
- To provide requisite skills and knowledge on agricultural technologies
- To increase the value of agricultural products and also improve farmers access to cheap credit facility
- To increase livestock production and enhance food security

# 2. Budget Sub-Programme Description

The sub-programme's strategic focus in 2018 is to enhance agricultural production and productivity by initially training AEAs on improved varieties of maize, cassava, and other food crops. This knowledge would be transferred to the farmers through field visits and training sessions organized for them to build their capacity. To increase farmer income and alleviate poverty, the sub-programme will support farmers with farm inputs which will also lead to increased yield. To undertake these programmes, 2018-2021 MTEF budget for the sub-programme is estimated to be GHC 804,007 which is an increase from the previous year's budget of GHC 111,415.00. This sub programme will be funded from the following sources, i.e. IGF, GOG, DACF, and CIDA (Donor). The beneficiaries of these programmes are the farming communities within the district.

In 2017, the sub-programme was able to provide technical assistance to the farmers in the areas of crop production, livestock, poultry, aquaculture and the eradication of fall army worms in the district. However, the department continues to face the following challenges, among them, weak monitoring and evaluation system and inadequate physical facilities. Other challenges are the high cost of farm inputs, declining soil fertility, high cost of credit and poor marketing infrastructure.

# **BUDGET PROGRAMME SUMMARY**

# PROGRAMME 5: ENVIRONMENTAL AND SANITATION MANAGEMENT

- 1. Budget Programme Objectives
  - To prevent and control environmental pollution through monitoring and enforcement of environmental regulation.
  - To create environmental awareness through public education and sensitization
  - To plan and implement programmes to prevent and/or mitigate disaster in the District within the framework of national policies

# 2. Budget Programme Description

The strategic objective of the programme is to protect the environment against all forms of pollution and also try as much as possible to prevent disasters or mitigate its effects on us out of our own negligence. This programme is to be undertaken by the NADMO and Natural Resource Conservation Department in collaboration with the relevant stakeholders. In the area of natural resource conservation, the programme, contributes to the country's social and economic growth. According to ISSER Newsletter issue of 2015 volume 3 (January-June), about 36% of the country's Gross Domestic Product (GDP) between 1993 and 2012 is derived from natural resource-based sectors. Thus it is evident that natural resource conservation and management of natural capital is pivotal to the socioeconomic development of the economy and therefore requires sound management and government structures.

In the area of managing disaster the programme will see to it that environmental laws are seriously adhered to so that we will safe from the natural disasters.

# **PROGRAMME5:** ENVIRONMENTAL AND SANITATION MANAGEMENT

# SUB-PROGRAMME 5.1 Disaster prevention and Management

# 1. Budget Sub-Programme Objective

- To provide efficiency in response and management of disasters and risks
- To create environmental awareness through public education and sensitization.
- To plan and implement programmes to prevent and/or mitigate disaster in the District within the framework of national policies

# 2. Budget Sub-Programme Description

This sub-programme is to be undertaken by the district department of National Disaster and Management Organization (NADMO). The department will be responsible for the management and mitigation of disaster. Thus it will be responsible for coordination, monitoring and updating of disaster management plans. This they will do in collaboration with the relevant stakeholders through the formation of disaster volunteer groups (DVGs), public education and sensitization. The DVGs will provide the first line response in the event of a disaster. The sub-programme would ensure the provision of adequate capacity building for National Disaster Management Organization's staff in order to equip them with skills and competencies needed to enhance delivery of task. This would be executed in the entire district, where it could take the form of house-to-house, going to churches, schools, community durbars and also meeting identifiable groups within each community or area. This will ensure full participation which will eventually lead to the full implementation of the sub-programme. National Disaster Management Organization (NADMO) as a leading implementation agency and will collaborate with the Ghana National Fire Service, Ministry of Food and Agriculture, Information Service Department, Ghana Health Service, Meteorology, Environmental Health Unit and the rest for the successful execution of the sub-program. The sub-programme will be executed with funds from the DACF and IGF with 34 staff from NADMO and one each from the other collaborators.

The department is seriously challenged in the area of managing and mitigating disaters due to the fact that is financially handicapped. In 2018 the sub programme will be given a budget of GHC 891,700.00.00 to undertake its activities.

# **SUB-PROGRAMME 5.2** Natural Resource Conservation

#### 1. Budget Sub-Programme Objective

To conserve, protect, promote and sustainably manage the environment and natural resources for the development of the district.

# 2. Budget Sub-Programme Description

The sub-programme, Natural Resources Conservation contributes to the country's social and economic growth. According to ISSER Newsletter issue of 2015 volume 3 (January-June), about 36% of the country's Gross Domestic Product (GDP) between 1993 and 2012 is derived from natural resource-based sectors. Thus it is evident that natural resource conservation and management of natural capital is pivotal to the socioeconomic development of the economy and therefore requires sound management and government structures. Thus this sub-programme under the Programme Budgeting is going to be undertaken by the Natural Resource Conservation Department, the Forestry Unit and NADMO. The sub-programme is going to see to it that the environment is protected through the formation of taskforce to monitor the activities of the "galamsey" operators in the district and also do some education on tree planting especially around rivers and water bodies to prevent them from drying up. The sub programme in 2018 has been allocated a budget of GHC 10,000.00 from the DACF with which to work with. Though it is not enough, it has been their challenge sine the creation of the department. Also the sub-programme also lacks vehicle and enough staff to go about their monitoring exercises.
