PART A: STRATEGIC OVERVIEW

1. ESTABLISHMENT OF THE DISTRICT

1.1 Location and Size

The Ada West District is among the twenty-nine districts in the Greater Accra Region and it is situated in the south-eastern corner of Ghana. It was carved out of the former Dangme East in the year 2012 and it was established by the Legislative Instrument 2129 of 2012.

The District lies between Latitudes 5°45'S and 6°00'N and Longitude 0°20'W and 0°35'E. The total land area of the District is approximately 323.72 Square km, which is about 10% of the total land size of the Greater Accra Region.

The District shares common boundaries with the North Tongu District of the Volta Region to the North, Ada East to the East, Ningo Prampram District to the West and to the South by the Gulf of Guinea, which stretches over 45 Kilometres (27.9 miles) from Wokumagbe through Goi to Kablevu. Sege is the District capital, and it lies about 80 Kilometres from Accra on the Accra –Aflao road.

POPULATION STRUCTURE

According to the 2010 Population and Housing Census, the Ada West District has a total population of 59,124 with females slightly outnumbering their male counterparts. The Census showed that the female population of the district is 30,545 representing 51.7 per cent of the total district population while the male population of 28,579 represents 48.3%. The population of the district represents only 1.5% of the population of Greater Accra. The District is a newly created one and lacks data for a comparative analysis of the trend in growth and therefore the Regional growth rate of 3.1 % would be used to project for future population figures.

2. VISION

To become the most attractive, responsive and resilient District Assembly in Ghana

2020 Composite Budget For Ada West District

3. MISSION

The Ada West District Assembly exists "to improve the living standard of its citizenry through coordination with all stakeholders to mobilise appropriate resources for the implementation of relevant socio-economic interventions in a sustainable manner

4. GOALS

The goal of the Ada West District is to improve upon the general living standard of the people through a concerted effort of all stakeholders to create an enabling environment for the growth and development of the private sector-led economy

5. CORE FUNCTIONS

The core functions of the Ada West District Assembly are outlined below:

- Responsible for the overall development of the district
- To exercise political and administrative authority in the District, provide guidance, give direction to and supervise all other administrative authorities in the district.
- Maintain security and public safety
- Exercise deliberative, legislative and executive functions
- Formulate and execute plans, programmes and strategies for the effective mobilization of the resources necessary for the overall development of the district
- Promote and support productive activity and social development in the district and remove any obstacles to initiate development
- Initiate programmes for the development of basic infrastructure and provide district works and services
- Be responsible for the development, improvement and management of human settlements and the environment in the district
- Guide, encourage and support sub-district local government bodies, public agencies and local communities to perform their roles in the execution of approved developmental plans.

6. DISTRICT ECONOMY

a. AGRICULTURE

Agriculture constitutes the main economic activity and a major source of livelihood for the majority of the rural dwellers. According to the 2010 Population and Housing Census, the agriculture sector provides employment for about 42.5% of household head in the District. This include livelihood for the people through direct farming, distribution and marketing of farm produce and other service to the agricultural sector. It forms the basis of successful operation of the thriving market in the district and other sister districts. The main agricultural activities considered here include crop farming (48.1%) livestock rearing (36.5%), and fishing and agro-forestry.

Agriculture in the district contributes to food security, provides raw materials for local industries, generates foreign exchange, and provide employment and incomes for most of the population (especially those living in the rural areas), thereby contributing to poverty reduction

b. MARKET CENTRE

The market currently serving the District is a temporary street one while a modern market and lorry park are under construction

c. ROAD NETWORK

The Ada West District is accessed mainly by a mix of road network of highways, feeder roads and water transport. Unfortunately, some of the feeder roads become almost impassable during the rainy season as a result of serious erosion problems due to the lack of a good drainage system and the bad condition of the roads. Road transport is by far the principal mode of transport used in the district. It is estimated that the current feeder road network totals 171.12 kilometers, consisting of: **1**. 14 km of good tarred trunk roads stretching from Ada Kasseh to Dawa linking Accra to Aflao. **2**. 108.12 km of feeder roads which are either gravel or earth. **3**. 24 Km of un-engineered feeder road **4**. 25 km of urban roads, most of

which are tarred but a long portion of it is in poor conditions due to threat of heavy weight trucks cutting boulders from quarry sites along the Sege -Battor Road and Sege Akplabanya.

d. EDUCATION

While significant efforts have been made by central government and other agencies to improve access through the provision of infrastructure and facilities, issues of financing quality education and management remain big concerns in the District. Universal enrolment in basic schools has not been achieved and adult literacy is estimated at 68.5% of the population (11 years and above) but varies considerably between men and women, with their respective rates being 54.1% and 45.9%.

The District is divided into four circuits for proper management and supervision. Sege circuit has the highest number of teachers for the primary level as well as for the JHS while Afiadenyigba circuit has the least number of teachers for both primary and JHS level

The public and private sectors continue to collaborate to provide educational services in the District. The private sector contributes about 39.2% of the total school facilities while the public sector contributes 60.8%

At the Kindergarten, of all the total schools, the Private sector accounts for 43.1% while the public sector accounts for 56.9%. Similar trend can be observed for the primary level where the private sector accounts 42.1% while the public sector provides 57.9%. It is only at the Junior High School where the contribution of the private sector is far lower (28.1%) than the public sector (71.9%)

e. HEALTH

The district has ten (10) Health Facilities which comprise one (1) Newly constructed Polyclinic at the District capital, Sege, four (4) Health Centres, one each in the three sub-districts and five (5) have operational CHPS facilities. These are located at Madavunu, Matsekope, Luhuor, Ceasarkope and

Afiadenyigba. There are no private health facilities but there are however eleven chemical sellers (Shops) and about 30 untrained Traditional Birth Attendants widely distributed over the district. Physical access to health care services is limited by inadequacy of health facilities.

The District provides outreach health services by Community Health Nurses in 42 mostly remote areas in the district with support from the Health Centres. The District is relatively newly created and the health Directorate has no permanent office and operates from limited space within the premises of the old Assembly offices.

f. WATER AND SANITATION

Environmental sanitation is aimed at developing and maintaining a clean, safe, and pleasant physical and natural environment in all human settlements, to promote the socio-economic and physical well-being of all sessions of the population.

Baseline data on environmental sanitation shows that households in the District still rely on improper waste collection and disposal methods. Most settlements in the District are without organized refuse disposal sites. Domestic rubbish (solid waste) is disposed of indiscriminately in areas surrounding residential houses. The District depends on refuse trucks belonging to the Zoomlion Company Ltd for the waste management. Potentials for urbanization and non-adherence to planning schemes leading to unauthorised construction of buildings along flood plains and creation of slums in the District are the eminent challenges with sanitation.

Poor solid wastes management with its immediate and visible impact remains a daunting task for achieving a healthy environment. Based on the 2010 Population and Housing Census, the District population is estimated at 59,124 and the residents generate an estimated average of 0.2 Metric Tonnes of solid waste daily which is translated into 67.2 Metric Tonnes annually.

²⁰²⁰ Composite Budget For Ada West District

²⁰²⁰ Composite Budget For Ada West District

From the 2010 PHC, only 9.6% of households have their waste collected from their dwellings, 29.7% of the household have their waste burnt, 39.4% use various household receptacles for storage which are send to the designated public dump (open space). Incidentally only 6.5% of the household send their solid waste to the public containers for disposal. The data also indicates that 3.3% of households bury their waste while 10.5% of households dump at unspecified locations including drains, embankment of water courses and wetland.

g. ENERGY

The three main sources of lighting in dwelling units in the district are electricity (66.6%), kerosene lamp (27.2%) and flashlight/torch (5.0%). The main source of fuel for cooking for most households in the district is charcoal (55.2%)

7. KEY ACHIEVEMENTS IN 2019

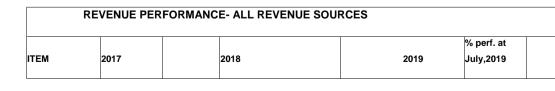

- Construction of 1. No. 6-Unit Classroom Block at Tehey.
- Construction of One District Polyclinic at Sege
- There is an ongoing construction of Modern Market at Sege, the District Capital.
- Construction of 3-unit classroom block with Ancillary facilities at Matsekope
- Construction of 3-Unit Classroom Block with Ancillary Facility at Ayisah

3. REVENUE MOBILIZATION STRATEGIES FOR KEY REVENUE SOURCES

The Assembly intends to realize the 2020 revenue projection of GH¢924,250.00 for Internally Generated Funds (IGF).

This would be mobilised using the under listed strategies:

- Identify and tap nontraditional sources of revenue such as canoe owners and fishmongers, establishment of cattle market/ranch etc. to boost revenue generation
- Erecting of barriers/checkpoints for revenue collection purposes across the district (Anyamam – Akplabanya – Wokumagbe)
- Creation of revenue database and computerization for billing system
- Monitoring and supervision of revenue units and collectors
- Preparation and implementation of Revenue Improvement Action Plan (RIAP)
- · Frequent and periodic audit of revenue collectors and sources
- Effective collaboration with the other related heads of Departments for improved revenue performance

ACTIVITIES

- 1. Review previous new fee-fixing resolution
- 2. prosecution of tax defaulters.
- 3. Continue with data collection for BOP / property rate/ Temporal structure
- 4. Publicity and sensitization on rate payment and revenue mobilization.
- 5. Capacity building for revenue collectors and all revenue related staffs.
- 6. Monitor revenue from technical departments.
- 7. Print 2020 BOP and property bills on time
- 8. Organize quarterly revenue review meetings.
- 9. Organize mass revenue mobilization exercise.
