PART A: STRATEGIC OVERVIEW

BACKGROUND

The Okaikwei North Municipal Assembly (ONMA) is one of the thirty- eight newly

created District/Municipal Assemblies inaugurated on Thursday, 15th March, 2018

across the country under the President of Ghana, His Excellency Nana Addo Dankwa Akuffo - Addo. The capital of the Municipal Assembly is Abeka. It is currently among

one of the Two Hundred and Sixty (260) Metropolitan, Municipal and District

Assemblies (MMDAs) in Ghana and one of the Twenty-Nine (29) MMDAs in the

Greater Accra Region. It was carved from the Accra Metropolitan Assembly on

14thNovember, 2017.

ESTABLISHMENT OF THE MUNICIPAL

The ONMA was established under the Local Governance Act, 2016, (Act 936) with

Legislative Instrument (L.I) 2307. It has eleven (11) electoral areas and includes

Apenkwa, Wuoyeman, Blema Gor, Olengele Koona, Gbemomo, Anorhuma,

Akweteman, Nii Boiman, Achimota, Abofu and Anumle.

POPULATION STRUCTURE

According to the 2010 Population and Housing Census Okaikwei North Municipal

Assembly had 228,271 representing 5.7% of Greater Accra Region's population

(4,010,054). The females (117,590) formed 51.5% of the population as against

(110,681) 48.5% males denoting more females than males in the Municipality.

Okaikwei North Municipal Assembly as at 2019 is 300,454 at a growth rate of 3.1

according to the 2019 population projections by the ONMA Statistics Unit. The females

(154,774) make up 52. % of the population while the males (145,680) make up 48% of

the population.

ECONOMY OF THE MUNICIPALITY

Out of the population 15 years and older in the municipality, 70.1 percent were

economically active while 29.9 percent were economically not active. Ninety-three

2020 COMPOSITE BUDGET FOR OKAIKWE NORTH MUNICIPAL

There is an average of 3.7 persons per household in the Municipality. The average

number of households per house is 11.1. The household normally consists of a head,

with or without spouse, children, in-laws, parents, grandchildren, and other relatives. A

percent of the economically active population are employed while 7.0 percent were unemployed. More than half of the economically not active population are in full time

education (52.0%) and the disabled or sick constituted the least percentage (3.1%). The large number of economically not active population but are in full time education

means that the municipality has potential quality human capital for its socio-economic

More than a third (38.5%) of the population are engaged in service and sales work.

More than a third (35.2%) which is the highest percentage of the total working

population are in the wholesale and retail, repair of motor vehicles and motor cycles

category. This means that the informal sector has the potential to reduce

The private informal sector is the main avenue for employment (74.0%) in the

Municipality followed by the private formal sector (16.9%), indicating that the private

sectors (90.9%) were the major employers in the Municipality. The high proportion of

the working population in the informal sector could be due to inadequate employment

opportunities in the formal sector couple with the fact that some people have low

educational and professional training which do not meet the requisite qualifications for

Employment status peaked (17.4%) for both sexes at age group 20-24, 65.1 percent of

all age groups together were employed while 29.9 percent of all ages together were

economically not active. Higher proportions of both sexes aged between 20 and 29

years dominated the various employment statuses. More males (80.2%) aged between 15 and 19 years than their female counterparts (75.9%) were economically not

active. This might be due to the fact that more males than females of that age group

development in future.

employment in the formal sector, particularly females.

HOUSEHOLD SIZE. COMPOSITION AND HEADSHIP

total of 96.1% of the total population of Okaikwei North Municipal live in households. Majority of the houses in the Municipality are owned by other private individuals (42.1%) followed by houses owned by a household member (36.5%). Household headship is generally dominated by males with the exception of compound houses (66.8%). Compound houses were the majority (67.7%) followed by those living in separate houses (9.7%). Tent and Huts/ buildings (different compound) were the least (0.2%).

SANITATION

Using an average of 300ml of faeces per person, 2.3 litres per capita sewer, 150 litres of liquid waste generation and 0.2 cubic metre of solid generation per capita, the below represent the daily and annual projection waste generation in municipality.

TABLE 1: WASTE GENERATION IN THE MUNICIPALITY

S/N	Waste Category	Volume Per Day (in cubic metres, m³)	Yearly Volume (in cubic metres, m³)
1	Faeces	87	31,910
2	Sewer	670	244,647
3	Liquid Waste	17485	6,382,098
4	Refuse	58284	21,273,660

Hence, ONMA prioritizes waste management as the major development challenges facing the Municipality. A major source of refuse in the municipality is plastic bag of sachet water.

WATER SECURITY

The estimate annual water demand of the Municipality is estimate at 15.9m m³ per year (43,713 m³ per day). Okaikwei North Municipal is served from the Weija dam for household water supply. There is evidence to suggest that the populace depend on sachet (0.5 I packaged water in plastic bags). According to Ghana Water Company

Limited, they serve about 60% of geographical land space, the rest depend on individual water tankers.

EDUCATION

Education is essential for the development of the requisite human resources needed for accelerated socio-economic development in society. It is the process of acquiring knowledge, skills, values and attitudes to fully develop individual capacities for societal well-being. There is a relationship between education, human resource development and economic growth (United Nations Development Programme, 2011).

In the 2010 census, literacy was defined as the ability to read and write a simple statement with understanding. It is an indicator for ascertaining the extent to which societal knowledge can be transmitted from generation to generation in written form. The 2010 Population and Housing Census collected information from persons aged 11 years and older on literacy in three languages; Ghanaian languages, English (the official language), and French. The proportion of persons aged 11 and above in the Municipality is 78.26% of the total population of the Municipality. 89 percent of the population aged 11 years and older were literates (in English, any Ghanaian language, or French) while 11 percent were not literates. Five out of every 10 persons (52.0%) can read and write in English and Ghanaian language. Also, six out of every 10 persons who were 65+ can read and write in English and Ghanaian language. The proportion of the population who can read and write in English and French, and English, French and Ghanaian language were 1.2 percent and 1.9 percent respectively. The results further show that the number of non-literate females was more than twice that of males. Similarly, female literate population in the Municipality was slightly more than their male counterparts.

The proportion of persons aged 3 and above of the total population of the Municipality is 84.22%. Out of this, 38.03% are currently in school whiles 61.97% had attended any form of education in the past.

Of those currently in school, 38.4 percent were at the primary level, 18.2 percent were at the JSS/JHS level while 12.8 percent were at the Senior High School level. With regards to those who were in school in the past, Middle school (20.9%), JSS/JHS (24.7%), SSS/SHS (14.8%) and Tertiary (11.2%). Also, the results show that more

females (26.1%) than males (23.2%) ended their education at the JHS/JSS levels while more males (14.3%) than females (8.2%) completed Tertiary education in the Accra Municipality. The low proportion of females in Tertiary education and the higher percentage who end their education at the JHS could be due to social roles women play.

HEALTH

There are two public health facility in the Municipality, Achimota Hospital and Health Centre at New Fadama. However, there are a number of private health service providers in the Municipality, example Lapaz Community Hospital. ONMA intends to ensure that each Electoral Area has a CHPS going forward since each meets the minimum population requirement.

VISION

"A model Municipality in excellence"

MISSION STATEMENT

"To promote community growth and sustainable development by improving effective and efficient management of resources through good governance, community participation, local economic development, improved sanitation and infrastructure development".

- Carry out public announcement on the need to honor their civic obligation on property rate
- Issue Demand notices, and summons defaulters after three months of issuance of bills.
- Train revenue collectors on efficient addressing system and block maps
- Take court action against recalcitrant rate payers as a last resort.
- Institute special team for weekend collection

Land & Royalties

- Intensify the monitoring of physical development to check that most buildings obtain appropriate permit
- Tagging of building under construction for identification of construction/renovation without permit for billing and payment of penalties
- Sensitize property owners on the need to acquire building permits.
- To strengthen the Zonal Council to enforce the bye-laws concerning ground rents

Rent on Land, Buildings and Properties

- · Assign officers to monitor and audit the collection of revenue.
- Provide logistics for the Zonal Councils to enhance revenue collection.

Licenses

- · Printing and distribution of bills
- Provision of logistics for revenue collectors. Eg. Vehicles and field materials such as rain coats, bags, value books, T&T.
- Invite rate payers for a consultative meeting with the Assembly to discuss issues relates to the Fee-Fixing of the Assembly.
- Use of information and radio announcement throughout the year to sensitize the public on their civic obligation.
- Organize training workshop for revenue collectors to equip them on effective revenue collection.
- Institute special team for weekend collection on revenue

Fees

- Sensitize petty traders in the need to pay market toll
- · Enforcement of commercial vehicle stickers

Fines & Penalties

- Introduce towing and clamping services within the Municipality
- · Summon defaulters before court
- Monthly field revenue monitoring.
