#### PART A: STRATEGIC OVERVIEW

#### **MUNICIPAL PROFILE**

#### Background

The West Gonja Municipal is one of the 7 administrative districts in the newly created Savannah region of Ghana and was established on the 23rd of December 1988 by PNDC Law 207. In 2004 however, the Central Gonja Municipal was carved out of it with the passage of a new legislative instrument (L.I.1775) and also the North Gonja Municipal was carved out of the West Gonja Municipal in 2012 by (L.I. 2069). The capital of the Municipal has nonetheless remained at Damongo which is also the seat of the Overlord of the Gonja land and the Regional Capital of the Savannah Region.

#### **Physical Features.**

The physical features of the West Gonja Municipal are made up of natural environment namely climate, vegetation, relief and drainage, location and size, the social and cultural environment in which the people live. The physical features are therefore essential elements or factors affecting the socio-economic development of the District.

#### Location and size.

As shown in Figure 1.1, West Gonja Municipal is located to the west of Tamale, the Northern Regional capital of Ghana and it lays within longitude 10 51 and 20 581West and latitude 80 321 and 100 21North. It also shares boundaries to the south with Central Gonja District, Bole and Sawla-Tuna-Kalba Districts to the west, Wa East Municipal to the north-west and North Gonja Municipal to the east. The Municipal has a total land area of 4715.9sqkm, part of which is occupied by the Mole National Park and Kenikeni Forest Reserves.

Relief and drainage The topography is generally undulating with altitude between 150-200 meters above sea level. The only high land is the Damongo Escarpment located north of the Municipal capital. The Mole River from the northern boundary joins the White Volta to the east of the Municipal capital and joins the Black Volta around Tuluwe in the Central Gonja District. The White Volta forms the Eastern boundary of the district.

Climatic conditions Temperatures are generally high with the maximum occurring in the dry season, between March/April and the lowest between December/January. The mean monthly temperature is 27°C. The dry season is characterized by the Harmattan winds which are dry, dusty and cold in the morning and very hot at noon. Evaporation is very high causing soil moisture deficiency. Humidity is very low resulting in dry skin and cracked lips in humans especially within the Harmattan period. Rainfall is bimodal with the average annual precipitation being 1,144mm. The rainfall pattern is erratic, beginning in late April and ends in late October. The peak of rainfall is in June/July with prolonged dry spell in August. The rains are stormy and torrential up to 300mm per hour. Erosion and floods are common due to the torrential nature of the rains.

Soil The Municipal is situated in an old geological area. The rocks are mainly of Voltaian gold. There are mudstones and sandstones in the Alluvial Damongo Formations. The extreme western part of Damongo is composed of granite material of low fertility. Rich alluvial sandy deposits occur around Damongo and the Kenikeni Forest Reserves. The soil around Kotito is said to be fertile and suitable for cereals, legumes and root crops including livestock production. Underground water potentials are limited due to the Voltaian Formation.

Vegetation The natural vegetation is Guinea Savanna. The vegetative cover of the Municipal is dictated by the soil types and human activities including shifting cultivation, slash and burn method of land preparation and illegal chain-saw operations. The major tree spices are shea, dawadawa, baobab, acacia, nim and some ebony. The trees are scattered except in the valleys where isolated woodland or forests are found. Most trees are deciduous, shedding their leaves during the dry season in order to conserve water.

Grass grows in tussocks and may reach a height of 2.7m during the rainy season. This indicates that the area is suitable for crops such as millet, sorghum, maize and groundnuts. The original vegetation in major settlements such as Damongo and Busunu has been destroyed by human activities.

Political and Administrative Structure 1.3.1 Organizational structure The Municipal Assembly as the Legislative Political and Administrative Authority has twelve (12) electoral areas under one constituency. The Assembly consists of twenty (20) Assembly members, twelve (12) elected and eight (8) appointed. In terms of gender, membership of the assembly is made up of three (3) females and seventeen (17) males, representing 15 percent of females and 75 percent of males. The Municipal Chief Executive is the Political Head of the Municipal and also chairs the Executive Committee. Three (3) Town/Area Councils subsist under the Assembly. They include; Damongo Town Council, Busunu Area Council and Larabanga Area Council. There are 11 decentralized departments in the district. These include central administration, works, physical planning, trade and industry, agriculture, social welfare and community development, legal, waste management, urban roads, budgeting and rating, and transport.

Ethnicity There are 22 ethnic groups in the District. The major groups in order of magnitude include Gonja, Hanga, Kamara, Dagomba, Tampulma, Frafra and Dagaaba. Festivals The West Gonja Municipal share similar festivals with other districts in the Northern Region. Prominent among these are Damba and Fire festival (Jintigi).

Religion There are four major religious groups in the Municipal following the 2010 census. These are Islam (41.7%), Catholic (26.3%), Pentecostal (8.0%) and Traditional Worshippers (5.4%). The most dominant religion in the Municipal is therefore Islam. Christianity and Traditional religion then follows.

#### Economy

The main economic activities in the Municipal include farming, agro-processing and trading in foodstuff. Farming is the major economic activity and source of income for the

people of the District. The crops produced are maize, cassava, rice, yam, beans, groundnuts and others. Animals such as sheep, goats, cattle, pigs and fowls are also reared in the District. The women mainly engage in gari processing and sometimes Sheabutter production. There is a dedicated market day (Saturdays) which comes on weekly, on which day traders from within and adjoining districts and towns including Sawla, Wa, Tamale, Busunu, and Laribanga converge to buy and sell. The Municipal capital is also replete with hair dressing salons, carpentry, electrical, auto mechanics and tailoring shops. Financial institutions in the Municipal include Ghana Commercial Bank Ltd, Buwulonso Rural Bank and Bayport Financial Services.

Transportation Roads linking communities of the Municipal are largely feeder roads. The main trunk road in the Municipal which is the Sawla-Damongo-Fufulso road is currently being constructed with bitumen surfacing. Total feeder roads length is 154.1km out of which 81.2km is engineered, and 72.9km remains non-engineered.

Agriculture from the 2010 Population and Housing Census, it is found that 60.5 percent of the population engaged in agriculture. The Municipal is a major producer of groundnuts, maize and cassava in the region. Agro-based industrial activities focus on Shea-butter extraction, gari and rice processing.

The type of farming system prevailing is mixed farming. Besides crop production, some farming families also engage in livestock and poultry rearing. With regards to crop production, semi-permanent to shifting cultivation is practiced in the remote areas of the Municipal where land availability is not constraint and population density is low. Mixed cropping dominates the cropping pattern. Monocropping in the Municipal is mostly related to commercial rice and maize farming. Most farming practices involved the traditional labour intensive type characterized by the use of hoe and cutlass. Tractor services have become the dominant farming practice use by farmers in the District. Some farming population also relies on animal traction. To a greater extent, agriculture in the Municipal is predominantly small holder, subsistence and rain-fed. Major traditional crops cultivates

<sup>2021</sup> PBB Estimates-West Gonja Municipal

in the Municipal include maize, sorghum, millet, groundnuts, cowpea, cassava, rice and yam.

#### Health facilities.

The West Gonja Municipal Hospital is the highest level of health care facility in the District. This is supported by Health Centres at Langbonto, Laribanga, Achubunyo, Mole and Busunu. The Tamale Teaching Hospital serves as a referral centre for medical conditions which these facilities are unable to contain. Other people also assist to provide health services to the population, namely, Trained Traditional Birth Attendants (TBAs), Village health workers and Guinea-worm volunteers.

There is a Health Assistance Training School in the Municipal to augment the human resource needs of the sector.

#### Education

The Municipal has eighty-five (85) basic and second cycle institutions: Thirty-four (34) are kindergarten and nursery, 33 primary schools, 17 Junior High Schools and only three (3) Senior High Schools. The Municipal is also blessed with an Agricultural Training College and a Health Assistants Training School.
