2. Population Structure

2.1 Demographic Characteristics

Population of the Municipality as indicated by the 2010 PHC was 109,944 [(male - 53,676 (48.8%) & Female - 56,268 (51.2%)] with an average growth rate of +1.8% per annum, which is higher than the regional population growth rate of +1.2%. The municipal population is projected to be 133,782 (male – 65,314 & female – 68,468) by 2021 39.19% of the population falls between ages 0-14 years (2010 PHC) and this has serious implication for planning for social amenities (Necessary, KG and Primary There is therefore the need to encourage the girl child to go school and actively involve women in decision making processes at all levels in the municipality since they constitute the majority (51.2%) of the municipal population

The Municipality's age dependency ratio is 1: 0.84 which is lower than the national age dependency ratio of 1: 0.93. The population density of the municipality is 143.33 persons per square kilometer which is higher than both the national population density of 103.4 persons per square kilometer and the regional density of 118.4 persons per square kilometer. (2010 PHC) The total number of households in the Municipality was 19,790, out of which 5,690 (28.8%) are located in urban areas and 14,100 (71.2%) are located in rural areas – 2010 PHC.

3.0 Municipal Economy:

3.1 Agriculture

Agriculture is the major economic activity in terms of employment and rural income generation in the Municipality. About 82% of the working population are engaged in agriculture. There are three (3) prominent types of farming activities in the Municipality and they are livestock farming (3.2%), food cropping (96.1%) and tree farming (0.3%)

(2010 PHC). The major food Crops produced in the Municipality are maize, rice, millet, beans, groundnuts and Sorghum. Vegetables such as Tomatoes, pepper and onions are cropped on large scales. A large number of these farmers have small holdings. The main types of livestock reared in the Municipality are cattle, goats, sheep, poultry, donkey and pigs and most of these are done on subsistence basis.

Extension agents transfer proven and accepted farming practices to farmers in a participatory manner; assist farmers to secure micro-loans to help them get started on their own farms or expand them; teach rural farmers on post-harvest processing and storage of the foodstuffs and provide credit and market-access assistance to the farmers to secure capital for their activities. There are 12 extension agents (5 newly recruited) with 31 NABCO and youth in agriculture complementing the efforts of the AEAs. This has significantly improved the extension farmer ratio from 1: 3,500 in 2017 to 1:947 in 2020

The TONO Irrigation project was established in 1975 but was fully completed in1985. The Project has a Gross Area of 3,860ha. The current total land area developed for irrigation activities, excluding the area covered by the Dam itself is 2,490ha. The total area covered by the Dam is 1860ha (lake surface area).

Small-scale agro-processing such as fibre, cotton, groundnuts, shea fruits, Dawadawa, rice, among others exist in the municipality.

3.2 Market Centre

Generally, there exist markets, which are operated on a three-day cycle basis. The Municipality has two (2) markets namely Navrongo old and new markets. The

Municipality also has seven (7) satellite and small markets namely Manyoro market, Gaani market, Natugnia market, Kologo Nayire market, Kologo Kulengo market, Biu market and Naaga market. The smaller and satellite markets act as collection points for the wide range of agricultural products. However, poor physical and industrial infrastructure is a challenge in the Municipality, which makes accessing key markets difficult. Most traded goods in the urban centers and markets are livestock, fruits, vegetables, cereals and legumes.

3.3 Roads Network

The Municipality has approximately 4 trunk roads (100km in length), 3 secondary roads and 5 feeder roads both totaling about 327.6km in length. The first class roads (40km) links Navrongo to Paga and Bolgatanga. The second-class roads are either tarred in patches or fully, linking Navrongo to Chuchuliga as well as institutions in and around the fringes of Navrongo. The third class roads are mostly feeder, linking the capital, Navrongo to other growth poles and service centres including Manyoro, Kologo, Naaga, Bui etc.Currently, about 30km Navrongo to Naaga and Naaga to Bolgatanga are being worked on.

Apart from the roads and paths, there is an airstrip along the Navrongo-Paga road that is used by aircrafts coming in from Accra and other parts of the country.

3.4 Education

According to the 2010 Population and Housing Census, the literacy rate among age eleven and above (11+) for the Municipality is 56.3%, implying that 43.7% falls within the illiteracy rate. Literacy rate is higher for males (54.6%) than females (45.4%).

There are 56 public preschools (KG), 90 primary schools (57 – public & 33 – private), 64 Junior high schools (48 – public & 16 – private) and 6 Senior High Schools in the Municipality. Enrolment in primary school stood at 21,869 (11,169 Males & 10,700 Females); JHS stood at 6,995 (3,433 Males & 3,562 Females) & SHS stood at 6,529 (3,395 Males & 3,134 Females) for the 2018/2019 academic year. Efforts must be made to keep pupils in schools (Department of Education, 2019)

The proportion of pupils who passed in the BECE Examinations increased significantly from 34.1% during the 2017/2018 academic year to 53.9% during the 2019/2020 academic year.

Again, the Municipality has One College of Education, One Community Health Nursing Training College and recently upgraded University, C. K Tedem University of Applied Science. Again, the Universities of Education, Winneba and Cape Coast have distance learning centers in the Municipality

3.5 Health

There are 25 health facilities in the Municipality consisting of 1 hospital (War Memorial Hospital), 19 CHPs facilities, 2 health centers, 1 Research Center (Navrongo Health Research Center), 1 Private Clinic and 1 CHAG clinic in the municipality. The Doctor to population ratio is 1:44,537 2019 and this is against the WHO recommended ratio of 1:10,000 for doctors. (Department of Health, 2019)

The Nurse-Population ratio stood at one (1) nurse to 961persons (1:961) in 2019, thus exceeding the WHO threshold of one nurse to 1,000 persons for developing countries. (Department of Health, 2019).

Other health related issues are;

- 1. Immunization coverage (Penta 3) stood at 72.0% in 2019.
- 2. Antenatal Care coverage (At least 1 visit) stood at 50.3% in 2019.
- 3. Antenatal Care coverage (At least 4 visits) stood at 78.5% in 2019.
- 4. Supervised deliveries stood at 55.6% in 2019.
- 5. The Municipal HIV Prevalence Rate stood at 1.8% between 2019

3.6 National Health Insurance Scheme

The implementation of the National Health Insurance Scheme covers the Kassena Nankana Municipal and Kassena Nankana West District Assemblies with the Scheme office located in the Kassena Nankana Municipal capital, Navrongo.

The total beneficiaries increased from 79,839 in 2017 to 86,325 in 2018. (Municipal Health Insurance Office, Navrongo, 2018)

3.7 Water and Sanitation

3.7.1 Water

Water is a basic necessity and an important resource for sustaining life. Without safe drinking water, humans, animals and plants cannot survive. The percentage population with sustainable access to safe water sources (coverage) all year round is 80% as at 2019. Progress has however been uneven across different communities, between urban and rural areas, and between rich and poor.

The Municipal capital, Navrongo and its immediate environs such as Doba are being served by Ghana Water Company while some of the major towns such as Biu, Kologo and Pungu have small town water systems. The Municipality has a pipe scheme, 203 boreholes and three small town water systems. The boreholes constitute the major source of access to potable water in the municipality.

3.7.2 Sanitation

Most households are without basic sanitation in both urban and rural areas. Percentage (%) of population with access to improved sanitation (flush toilets, KVIP, household latrine) was 19% in 2019. This is highly unsatisfactory as open defecation is very high in the municipality. This has serious implication on public health and productivity. The Municipality has one (1) final disposal site, one (1) public cemetery, twenty-two (22) public toilets, eight (8) 10m³ refuse containers and 748 of the 240L refuse containers. The Municipality has approximately 10 kilometers of drains located in the Municipal capital.

The Assembly won a price under the SC4GH in June, 2019 (Leadership commitment) which had led to the construction of number of sanitation facilities in the Municipality in 2020. Notably among them were 1no. 6-seater biogas water closer toilet facility at Navrongo Prison, 1no Four-seater water closer at Navrongo Health Center and 5no house hold pour flash toilet for the vulnerable in some selected communities

UNICEF enrolled the municipality for sponsorship on the CLTS programme in July, 2018. The five communities submitted for the CLTs programme were all declared ODF. It is hoped this intervention would continue to help reduced the incidence of open defecation.

3.8 Tourism

Tourism attractions and sites in the municipality include: the Unique Catholic Cathedral edifice **"Our Lady of Seven Sorrows Basilica"**; **Pungu Caves** telling the history of the engagement between Butu and Gullu Bu, **Gyara Teo in Gia** etc. These sites are

undeveloped and needs attention so as to attract tourists. There are hospitality facilities, which complement the tourism industry, offering recreation and avenues of socialization in the Municipality. They include: Mayaga Hotel, Tono Guest and Club Houses, CEDEC Guest House, M & J Hospitality, Pierre Lodge, St. Lucion Guest House & Restaurant, Catholic Social Centres in various communities, Patience to All Drinking Spot, First & Last restaurant, Peace & Love Restaurant, Jet Club, Anipola Spot, Prison View and many other spots, pito bars, registered homestay-compounds, food chop-bars etc. spread all over the Municipality

3.9 Energy Access

The main sources of energy to households in the Municipality are: kerosene and gas lamps (51.4%); electricity (28.8%); flashlight and torch light (16.9%); others (0.9%); private generator (0.8%); firewood and crop residue (0.7%); candle (0.3%) and solar energy (0.4%). Access to affordable energy services is a prerequisite to achieving economic growth and poverty reduction. It is essential for the Rural Electrification Programme to be extended to more communities in the Municipality in order to propel agro-processing and growth in these communities.

3.10 Manufacturing Industry

The Municipality huge potential in industrial and commercial activities including quarrying and solar power generation due to the availability of raw materials. The Municipality has rock-piles at Biu, Kologo and Naaga. These resources are left untapped

4. Vision statement of the Municipal Assembly

"A People Centered and Performance Driven Municipality".

5. Mission statement of the Municipal Assembly

"Excel in Development Facilitation and Sustainable Service Delivery through Sound Governance Principles"

The table above shows detail of the internally Generated Fund from 2018 to September,2020. Cursory look at it indicates that, 2020 IGF had been revised down ward and this was as a result of the Covid-19 Pandemic which had affected the socioeconomic wellbeing of the nation and Kassena Nankana Municipal Assembly was no exception. For instance, the projected amount of GHC514,200.00 was revised to GHC411,360.00 and the actual realized as at 30th September, 2020 was GHC236, 782.92 representing 57.56 against the revised. This meant that the Municipality might not able to meet its targets unless it implements the needed strategies to mobilise more before the end of the year, 2020
