PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

Nkoranza North District is one of the eleven Administrative Districts in the Bono East Region of Ghana with Busunya as its capital. The District was created under the Legislative Instrument (LI) 1844 of 2007 and was officially inaugurated by the Government of Ghana in 2008. It has a total land area of about 2,322sq kilometres. The District was carved out of the then Nkoranza District and it lies within longitudes 1° 10` and 1°55`West, and latitudes 7°20` and 7°55`North. The District shares boundaries with Kintampo South to the North, Nkoranza South Municipality to the South, Atebubu Amantin District to the East and Techiman North District to the W

Population Structure

The District has an estimated population size of 56,468 comprising of 49.1% male and 50.9% female and age distribution 0-14 (29.5%), 15-64(64%), 65 and above (6.5%). The growth rate is 2.6% and a population density of 20.75 square kilometer (2020 PHC).

Vision

The vision of the District is to facilitate the provision of basic social infrastructural amenities in a well-coordinated spacial space and improve upon the human capacity through Local Economic Development.

Mission

Nkoranza North District Assembly exists to ensure total socio-economic development at the local level through, coordination of other agencies in the implementation of government policies.

Goals

The goal of the Nkoranza North District is to develop the Human Resource Base of the district, enhance good governance and create an environment conducive for the development of the private sector with emphasis on agriculture, tourism and agroprocessing through active involvement of the citizenry especially women in decision making and implementation

Core Functions

The core functions of Nkoranza North District Assembly are to:

- Formulate and execute plans, programmes and strategies for the effective mobilization of the resources
- Promote and support productive activity and social development and remove obstacles to initiative and development
- Initiate programmes for the development of basic infrastructure

- Development, improvement and management of human settlements and the environment in the district;
- Ensure maintenance of security and public safety in the district

District Economy

Agriculture

The district's agricultural sector employs approximately 64.9% of the economically active population. Maize stands out as the primary crop cultivated in the region, serving as a staple food source. In addition, cashew is a significant cash crop, contributing to the district's economic activity.

The area's agricultural diversity extends to the cultivation of various other crops, including cassava, cocoyam, yam, plantain, groundnut, cowpea, tomato, beans, and sorghum, among others. This assortment of crops highlights the district's agricultural richness and its potential to ensure both food security and economic growth through the production and trade of these agricultural products.

Food Security

This measures the availability and sustainability of food resources to satisfy the population at any given time. Various steps undertaken by farmers to ensure food security are food production and livestock rearing. Table 1.7 below shows food production in the district.

Table 1.7: Food production level in the District (2020-2023)

Maize is the main food crop produced in the district with 9110 farmers involved. The district's production level for maize has seen an upward increase in the last 2 years, which is a sign of food security and livelihood improvement in the district. Thus, production of maize increased from 75,000 metric tons in 2022 to 87,940 metric tons in 2023.

Production levels for other food crops like cassava, groundnut and local rice have also been increasing over the last four years.

Livestock production also checks food security. Table 1.8 shows livestock production in the district.

Poultry production needs attention in the district since it can be a major source of income for many farmers. Ranching and establishment of veterinary health Clinic will help increase livestock revenues

• Major crop diseases in the district

- 1. Maize-streak
- 2. Groundnut-rosette
- 3. Cowpea-Anthracnose
- 4. Cassava mosaic
- 5. Tomato-Late blight
- 6. Yam-Mosaic
- 7. Sorghum-Smut

The district agricultural development unit has been implementing strategies to help solve these diseases. These are

- 1. The use of resistance varieties
- 2. Early planting
- 3. Treat seeds with appropriate chemicals
- 4. Used clean and improved seeds and planting materials.

Access to Agricultural Extension Services (AEA)

Agricultural activities in the district heavily depends on access to AEAs to offer technical knowledge to farmers on their daily activities in the farm. But the total number of AEAs in the district are inadequate to completely carry out their duties. The table below shows famer –Agricultural extension ration in the district.

Table 1.9 Farmer and extension officer ratio

| Year | Number of extension workers available | Total Number Required | Farmer and Extension officer ratio |
|------|---------------------------------------|--------------------------|------------------------------------|
| 2020 | 15 | 22 | 1:2,434 |
| 2021 | 14 | 22 | 1:2,517 |
| 2022 | 14 | 22 | 1:2,574 |
| 2023 | 12 | 30 | 1:2,500 |

Source: DADU, 2023

The ratio of farmers to extension officers is 1:2,500 which is way below the national standard is 1:400. Majority of the people are not privileged to learn new and improved

methods and technologies of farming. This implies old and rudimentary method of farming will still be practiced in the district.

Ongoing Agricultural programmes in the district

The following are programmes being implemented in the district to ensure food security and improvement in livelihood of farmers.

- 1. Planting for Food and Job (PFJ) programme; Fertilizer and seed subsidies, PERD (Planting for Export and Rural Development).
- 2. Modernize Agriculture in Ghana (MAG)
- **3.** Establishments of demonstrations; Adaptive trials to showcase new technologies to farmers.

Road Network

The district has a total road length of 614.35km of which 356.05km are engineered roads, partially engineered roads constitute 39.10km and 215.20km are non-engineered roads.

This clearly shows the district's road network is very poor and it impacts negatively on farming and other economic activities.

Energy

A. Energy for cooking

Cooking energy sources in the district include firewood, charcoal, gas, and electricity. Firewood is the dominant source at 61.9%. The other sources are as follows: 15.2% use gas, 12.5% use charcoal exclusively, and 10.7% use both firewood and charcoal.

In 2015, the Ministry of Energy, in partnership with the Ministry of Local Government and Rural Development, distributed Two Thousand (2,000) gas cylinders filled with gas to households in the district. This initiative significantly increased the percentage of people using gas for cooking from 1.7% to 15.2%.

B. Energy for lighting

The primary sources of lighting energy in the district include electricity, kerosene, and torch. In Nkoranza North District, electricity is the dominant lighting source at 71.7%, thanks to the government's rural electrification efforts. Torch usage stands at 22.2%, while kerosene accounts for the remaining 6.1%.

Community surveys indicate that 10.02% of the district's population lacks access to electricity.

This underscores the need to extend electricity services to newly developed

areas and communities not connected to the national grid. The following table enumerates the communities entirely without access to electricity.

Health

Health care is a social service that is delivered by a multiplicity of actors. They range from orthodox medical delivery systems to traditional systems. The orthodox health delivery system is dominated by Hospitals, polyclinic, health centers, drug stores and Community Health Planning Systems (CHPS). These systems are either publicly or privately owned but duly accredited to deliver the services they are delivering

Health infrastructure in the district

The district is divided into four area councils with each area council having number of health facilities. Table 1.24 shows number of facilities in the district for the various years.

Table 1.24: Health infrastructure in the District

| Facility | 2020 | 2021 | 2022 | 2023 |

Education

The district currently has a total 158 public schools including 57 KGs, 57 Public Primary schools, 42 JHS and 2 SHS. There are 29 private schools in the district comprising of 12KG`s, 12 Primary, 3JHS and 2 SHS

Educational enrolment

It can be deduced from the table that, as at August 2023, total number of children in school amount to 17,807 representing 82.21% of the total eligible population of the school going age.

It is the policy of the country for every child to be in school, therefore strategies should be in place to absorb all the children at school going age into school.

Market Centres

Nkoranza North District is a rural and agrarian district. It therefore exports agricultural produce to major marketing centers in Nkoranza, Techiman and Kumasi. In return they import manufactured products such as consumables and inputs from such trading partners.

The district has two renowned market centres at Dromankese and Busunya and other targeted crop market at Asekye to facilitate the trading of Maize.

Water and Sanitation

Water is a very essential component of human living and without it life can become unbearable. Depending on how it is treated, it can improve or deteriorate the health standards of the users. The sources of water for both industrial and domestic purposes in the district include boreholes, pipes, rivers and others.

Table 1.29: Water facilities in the district

| YEAR | 2020 | | | 2021 | | 2022 | | | 2023 | | | |

The district has only one small town water system located at Busunya. Total number of boreholes are 125 as at the last four years but presently the total number functioning is only 49 out of the 125. The district has 71 mechanized boreholes out of which 32 are functioning as at August 2023.

Sanitation

Environmental sanitation is among the powerful drivers of human development as it affects quality of life – improving health and rising wealth. It is also aimed at developing and maintaining a clean, safe and pleasant physical and natural environment in all human settlements, to promote the socio-cultural, economic and physical well-being of all sections of the population, there comes the need of Environmental Health Personnel in this District. The table below shows that staffs strengths in the district.

From the table above, the district has 12 Environmental health personnel but the following staffs are still needed; 2 Environmental Health Officer (Grade II) and 10 Environmental Health Assistant.

Waste management is essential to maintain healthy living devoid of illness and health related complications. The table below shows number of toilet facilities in the district.

Tourism

One classification of the tourist attractions in the Nkoranza North District is the historical heritage and natural attractions which include the Buabeng-Fiema- Monkey Sanctuary, Bono Manso Water Falls and the Bono Manso Slave Cave.

Environment

The major problem confronting the natural environment in the district is deforestation through illegal logging and bushfire. According to reports from the Department of Agric for 2022, bushfires also destroyed between 20-35 percent of agricultural lands annually. This has resulted in low soil fertility.

For the built environment, the Assembly is grappling with unauthorized developments of both temporary and permanent structures. However, due to pragmatic measures put in place, a lot of success has been chalked in ensuring orderly development of the capital city.

Key Issues/Challenges

- ✓ Inadequate KG classroom blocks.
- ✓ Inadequate supply of furniture to classroom blocks
- ✓ Lack of water and electricity in some CHPS compound.
- ✓ Lack of staff accommodation for Health officers.
- ✓ Inadequate number of veterinary officers to meet the demands of Rearing for Food and Jobs
- ✓ Inadequate local plans to ensure orderly development.
- ✓ Non availability of well-established market to enhance trade
- ✓ Security Unrest Due to the Influx Fulani Herds Men.

Key Achievements in 2023

- ➤ 30,000 Cashew Seedlings supplied to farmers under the PERD policy.
- District Health Directorate Office Completed.
- Assembly in collaboration with GPSNP rehabilitated five hectares communal land with cashew and mango trees in five communities (Pinihini, Adoe, Dromankese, Akonkonti and Boana).
- ➤ 11.8 km Spot Improvement Road Completed at Odumasi-Dromankuma-Dromankuma Junction, Bonte-Senya

Revenue and Expenditure Performance

Provisional financial data reveals that, out of the targeted revenue of GH¢8,802,712.12 an amount of 5,630,361.57 representing 63.96 was realized.

Revenue Mobilization Strategies

KEY ISSUES/CHALLENGES OF REVENUE MOBILIZATION

Crossing Cutting (General) Issues/Challenges

- i. Poor road network in the district resulting in motorist reluctant to pay the lorry tolls.
- ii. Lack of awareness on citizen's civil obligation to pay rates to the assembly.
- iii. Absence of Identification card for revenue collectors leads to controversies between collectors and rate payers
- iv. Limited revenue barriers results in revenue leakages.
- v. Non availability of bye laws to prosecute defaulters culminating into blatant disregard to demand notice.

Specific issues/challenges relating to the following:

- a. Rates
- 1. Lack of education and civil awareness on the need to pay property rates.
 - b. License (Business Operating Permit-BOP)
 - c. Inadequate businesses in the District.
 - d. Fees
- 2. Poorly developed lorry stations at Kranka, Yefri, Bono Manso and Busunya
- 3. Inadequate fees paying investments in the District.
 - e. Fines, Penalties and Forfeits
- 4. Non availability of District bye laws and court to lead in the prosecution of defaulters.

STRATEGIES TO ADDRESS THE ISSUES

a. Rates

- 1. Issue demand notices.
- 2. Intensify property rates education and sensitization.
- 3. Prosecute or punishing defaulters.

a. License (Business Operating Permit-BOP)

- 1. Frequently or regular inspection of building permits.
- 2. Routine unannounced inspections on business operating permits.
- 3. Closure of business without permit

a. Fees

- 1. Barriers should be erected at Kranka, Bono Manso and Yefri to collect lorry park entry fees.
- 2. Security Barricade at Asekye should be joined to the Assembly's revenue check point to help in checking of revenue payments

3. Police reinforcement should be used at revenue barriers to ensure conformity of revenue check points.

b. Fines, Penalties and Forfeits

1. Assembly bye-laws should be gazette to help in prosecuting defaulters

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

- 1. Budget Programme Objectives
 - To strengthen the support functions rendered to the departments in ensuring timely delivery of approved operations and projects.
 - To strengthen domestic resource mobilization and ensure sound financial management of the Assembly's resources.
 - To improve decentralized planning and budgeting.
 - To provide human resource planning and development of the District Assembly.
 - To uphold service delivery standards.

2. Budget Programme Description

The Management and Administration program aims to improve governance and provide logistics and human capacity support for effective service delivery. This involves policy formulation, planning, budgeting, coordination, and budget monitoring and evaluation.

The program will be implemented through various units within the Central Administration and Finance Departments, including Administrative, Budget, Planning, Accounts, Procurement, Human Resources, Internal Audit, and Records Units. Key sub-programs relevant to achieving program objectives in the district include General Administration, Finance and Audit, Human Resource Management, Planning, Coordination and Statistics, and Budgeting and Rating. Funding for the program primarily comes from Internally Generated Funds (IGF) and government transfers, such as the District Assemblies' Common Fund and District Development Facility (DDF Capacity Building Component). The primary beneficiaries of this program are departments other than central administration. A total of Seventy-five (75) staff members will be involved in program delivery.

Potential issues or challenges that could hinder program implementation include insufficient and delayed logistics supply to meet the demands of other departments.

SUB-PROGRAMME 1.1 General Administration

- 1. Budget Sub-Programme Objective
 - To provide administrative support, logistics and ensure effective and efficient interdepartmental coordination in the execution of operations and projects.
 - To ensure the effective functioning of all the sub-structures to deepen the decentralization process.

2. Budget Sub- Programme Description

The General Administration sub-programme looks at the provision of administrative support and timely coordination of the activities of the various units and departments through the Office of the District Co-ordinating Director. The sub-programme is responsible for all activities and programmes relating to organization of meetings, internal controls and protocols, procurement/stores, logistics, public relation and security, thus, serves as the secretariat of the assembly.

The core function of the General Administration sub-programme is to coordinate administrative functions of the Assembly's activities and quasi government institutions. The General Administration sub-programme draws a schedule for regular monitoring and evaluation of budget implementation by departments. This shapes and enhances decision making process of the assembly. In addition, it also provides logistics and ration to maintain public security in the district through District Security Committee (DISEC) meetings.

The general administration sub-programmes provide secretariat services to the Audit Committee in ensuring financial discipline in public expenditure in accordance with PFM Act, (Act 921).

The General Administration sub-programme also encompasses the procurement unit which initiate the procurement processes of Goods and Services and Assets for the Assembly and stores unit to ensure inventory taking and stores management.

The number of staff delivering the sub-programme is fourteen (27) with funding from District Assemblies Common Fund and the Assembly's Internally Generated Fund (IGF).

Beneficiaries of this sub-program are the departments, Regional Coordinating Council, quasi institutions, traditional authorities, non-governmental organizations, civil society organizations and the general public.

The main challenges which confronts the smooth implementation of this sub programme is the inability to depend on the IGF to deliver on its mandate

3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the District Assembly measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

PROGRAMME 3: INFRASTRUCTURE DELIVERY AND MANAGEMENT

- 1. Budget Programme Objectives
- Facilitate sustainable and resilient infrastructure development.
- To implement development programmes to enhance rural connectivity to urban and market centres through improved feeder roads.
- Maintain a safe and well-structured human settlement.

2. Budget Programme Description

This programme seeks to ensure strict adherence to approved land use protocols in human settlement development and create an access road network to interconnect communities and markets. It also seeks to facilitate the construction of resilient social infrastructure.

This will be achieved through the development of community layout in collaboration with traditional authorities and reinforcing compliance through regular site inspection and education. Road inventory will constantly be updated and constant reshaping/spot improvement to enhance vehicular mobility. There will be site inspection of construction sites to ensure structural integrity. Major communities will be provided with streetlight to enhance visibility at night.

The Infrastructure Delivery and management programme has two sub-programme comprising Physical Planning and Works Departments.

The programme is implemented with funding from District Assemblies common fund, DACF-RFG, GoG transfers and Internally Generated Funds from of the Assembly. The beneficiaries of the program include urban and rural dwellers in the District.

The programme will be implemented by twelve (12) officers.

SUB-PROGRAMME 3.1 Physical and Spatial Planning Development

- 1. Budget Sub-Programme Objective
 - To promote a sustainable, spatially integrated and orderly development of human settlements.
 - Improve public awareness on conformity to building regulations and procedures
 - To strengthen effective land use planning and management.

2. Budget Sub- Programme Description

The sub-programme seeks to co-ordinate human settlements in accordance to planning schemes.

The sub programme will spearhead the development of layout for the district. It will also focus on landscaping and beautification of the district capital to contribute to the Government of Ghana green economy agenda. This programme will also superintend over street naming and property addressing systems to bring orderliness in human settlements.

The Physical and Spatial Planning sub-programme is delivered through the Department of Physical Planning.

This sub programme will be funded from the Central Government transfers to the department, District Assemblies Common Fund and IGF for recurrent expenditures.

SUB-PROGRAMME 3.2 Public Works, Rural Housing and Water Management

- 1. Budget Sub-Programme Objective
 - Facilitate access to farm gates and market centres through improved feeder roads
 - Implement and maintain infrastructure delivery standards of public buildings according to approved project designs.

2. Budget Sub- Programme Description

The Sub-Programme seeks to enhance resilient infrastructure delivery and community road interconnectivity through the provision of technical assistance on good construction practices, effective project management, regular maintenance of public building and street lights and proper contract management administration. It will also offer technical advice on infrastructural development of the Assembly. In addition to the above, the lead departments will also undertake the following to meet it set out objectives:

- Facilitating the implementation of policies on works and report to the Assembly
- Assist in the preparation of tender documents for all civil works projects to be undertaken by the Assembly through contracts or community initiated projects.
- Facilitating the construction, repair and maintenance of public buildings drains along major settlements in the District.
- Assisting in the inspection of projects undertaken by the District Assembly with relevant Departments of the Assembly.
- Provide technical and engineering assistance on works undertaken by the Assembly.

The department of works comprises of Public Works, Feeder Roads, and Building inspectorate units to collectively implementing this sub-programme.

This sub programme is funded mainly from the District Assemblies Common Fund, District Development fund and GOG departmental support. The Assembly's Internally Generated Funds also augment this sub programme in recurrent expenditures.

The successive implementation of this sub-programme goes a long way to benefit the entire citizenry in the District. This sub-programme is managed by eleven (11) staff.

Key challenges encountered in delivering this sub-programme include inadequate logistics to enable officers embark on vigorous site inspection.

PROGRAMME 4: ECONOMIC DEVELOPMENT

Budget Programme Objectives

• To promote local entrepreneurship throughout the agriculture value chain

Budget Programme Description

The economic development program aims to raise awareness and promote local entrepreneurship, particularly among the youth in agriculture. It also seeks to establish trade platforms, such as market centers, to facilitate trade among the population.

These objectives will be realized and sustained through strong support for agricultural flagship projects, continual capacity building for Agricultural Extension Officers, and the adoption of advanced farming technologies. The Business Advisory Centre (BAC) will receive support to develop modules that empower Agri-businesses to seize opportunities along the Value Chain.

The program will be executed in partnership with the Department of Agriculture, District Business Advisory Centre (BAC), and other stakeholders, with the full involvement of all Agriculture department staff. A team of fourteen (14) personnel is dedicated to program delivery. Funding sources include Government of Ghana transfers, the Assembly's Internally Generated Fund, and additional support from donor funds (MAG).

SUB-PROGRAMME 4.1 Trade, Tourism and Industrial Development

1. Budget Sub-Programme Objective

- To develop physical platform where goods and services could be exchange to promote community and District by District trade interrelation.
- · Boast local economy through tourism.
- To build the capacity of the teeming youth in agribusiness.

2. Budget Sub- Programme Description

The Department of Trade, Industry, and Tourism's sub-program aims to enhance Agri-Business development along the value chain, encourage entrepreneurship, establish trade hubs, and promote local tourism in the district. This comprehensive strategy involves partnerships, constructing market centers, expanding road networks, and boosting national awareness of tourism sites through advertising and social media.

Leading this initiative are the Business Advisory Centre and Co-operatives, with the assembly overseeing in the absence of the trade and industry department. The works department will collaborate to improve road connectivity.

Funding for this sub-program will be sourced from GoG transfers and donor support, ultimately benefiting unemployed youth, SMEs, and the general public. However, challenges persist due to limited interest in technical apprenticeship, inadequate market centers, and insufficient road access from farm gates to market centers.

3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the District Assembly measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 4.2 Agricultural Services and Management

- 1. Budget Sub-Programme Objective
 - To assist in the formulation and implementation of agricultural policy within the framework of national policies.
 - To provide quality extension services and application of new technology in Agri-Business
 - To encourage and promote Agri-business.

2. Budget Sub- Programme Description

The sub-program aims to establish a robust Agri-business hub, promoting the timely adoption of best farming practices among farmers. It also aims to provide farmers with readily available extension support to improve yields and breeding. Furthermore, it seeks to facilitate the development of an efficient domestic market and enhance post-production management to reduce losses and improve the quality of fertilizer application in farming practices.

This will be achieved by promoting the use of improved seedlings and planting technology to boost yields, providing accessible technical advice, and monitoring livestock and poultry farming under the "Rearing for Food and Job" initiative. The program also promotes the development of selected cash crops for job creation and income generation, with extension staff providing supervisory support to farmers during field visits to ensure adherence to agricultural standards.

The responsible organizational units for implementing this sub-program include the Department of Agricultural Extension Services (DAES), Department of Crop Services (DCS), Department of Animal Production and Veterinary Services (DAP&VS), and Women in Agricultural Development (WIAD).

This sub-program is carried out by a team of twenty (20) officers funded through GoG transfers to the department, District Assemblies Common Fund, donor support from development partners (MAG), and internally generated funds. Its primary beneficiaries are the general public, especially rural farmers and residents. Key challenges include inadequate fieldwork logistics, competing demands that sometimes reduce the commitment of the assemblies to extension services.

PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

- 1. Budget Programme Objectives
 - To ensure sustainability of the ecosystem.
 - To manage and adopt mitigating steps towards natural disaster occurrence.

2. Budget Programme Description

The Environmental Management programme seeks to adopt proactive measures to mitigate the impact of natural disasters on the citizenry. It also seeks to reduce the effects on disaster victims by providing relief items.

This will be achieved through developing the capacity of community volunteer groups to respond effectively and timely to disasters victims. Community awareness and sensitization will be conducted to bring to the fore the need of community members to adopt practices that brings sustainability to the ecology. District wide tree planting exercise will be continued unabated to preserve the forest cover.

Disaster Prevention and Management programme will continue unabated to provide prompt response and manage natural disasters in the District.

Staffs from NADMO totaling twelve (12) with support from Forestry departments in the District will undertake this programme with funding from GoG transfers (District Assemblies Common Fund) and Internally Generated Funds of the Assembly. Donor partners will also be solicited to sponsor some of the environmental sustainable programmes. The beneficiaries of the program include urban and rural dwellers in the District.

SUB-PROGRAMME 5.1 Disaster Prevention and Management

- 1. Budget Sub-Programme Objective
 - To mitigate disasters by co-ordinating resources and developing the capacity of communities to respond effectively to disasters.
 - To ensure timely response to disaster victims and advice the public on disaster preventive measures in disaster prone areas.

2. Budget Sub- Programme Description

Disaster prevention and Management seeks to assist in planning and the implementation of programmes to prevent and/or mitigate disaster in the District. It also seeks to alleviate the plight of disaster victims.

The sub-program will be achieved through the following operations;

- To facilitate the organization of public education campaign programmes to create and sustain awareness of the hazards of disaster and emphasize the role of the individuals in the prevention of disaster.
- To assist and facilitate education and training of Disaster Volunteer Groups to fight community disasters including bush fires and domestic, windstorm disaster and pandemic and develop some measures to manage the effects of natural and man —made disasters.
- To conduct a post disaster analyses to determine the extent of damage and provide relief items to victims.
- Provide logistics to Disaster Volunteer Groups to facilitate their work
- Facilitate the collection, collation and update of data on disasters victims in the District to enhance policy formation.

The sub-programme is undertaken by officers from the NADMO department with funding from the GoG transfers and Assembly's support from the Internally Generated Fund.

The sub-programme goes to the benefit of the entire citizenry within the District. Some challenges facing the sub-programme include prompt relief items from the National Quarters to compliment district support. Inadequate logistical provision for District Disaster Volunteer Groups.
