PART A: STRATEGIC OVERVIEW OF THE SUNYANI WEST MUNICIPAL ASSEMBLY

1.1 Establishment of the District

The Sunyani West Municipal Assembly is one of the twelve districts in the Bono region of Ghana. It was declared a Municipal by an Executive Instrument on 23rd March, 2020 (LI 2395 of 2020). Odumase is the Administrative Capital.

1.2 Location and Size

The municipal lies in latitudes 7° 19′N and 7° 35′N and longitudes 2° 08′W and 2° 31′W and shares boundaries with Tain District to the North, Wenchi Municipality to North-East, Sunyani Municipality to the South and Berekum Municipality to the West. On the South-West, the municipal is bounded by Dormaa East District. The total land area of the municipal is 1,059.33 square kilometers.

1.3 Population Structure

The figures from the 2021 population and Housing census puts the municipal population at 136, 022 with a growth rate of 2.5%. It is made up of Male 67,251(49.4%) and Female 68,771(50.6%). In determining the growth rate, we take into consideration mortality rate, birth rate, and life expectancy.

1.4 Vision

A future in which all inhabitants will experience enhanced living conditions in a well maintained, highly decentralized and democratic environment.

1.5 Mission

To attain high standard of living for its inhabitants through the provision of infrastructure, social services and local economic development in a conducive environment, as well as promote governance through its sub-structures.

1.6 Goals

The goal of the Sunyani West Municipal is to attain high standards of living for the inhabitants of the municipality through public-private collaboration, provision of facilities, social services, improved farming and husbandry methods in a sustained environment and promoting governance through the strengthening of the Municipal Assembly Structures.

1.7 Core Functions

The core functions of the Sunyani West Municipal Assembly as defined in the Local Governance Act, 2016(Act 936) are outlined below:

- To perform deliberative, legislative and executive functions.
- To be responsible for the overall development of the Municipality to formulate and execute plans, programmes and strategies for the effective mobilization of the resources necessary for the overall development of the Municipality.
- To be responsible for the development, improvement and management of human settlements and the environment in the municipality.
- To initiate programmes for the development of basic infrastructure in the municipality.
- To promote and provide support for productive activity and social development in the municipality and remove any obstacles to initiative development.
- To be responsible, in cooperation with the appropriate national and local security agencies, for maintenance of security and public safety in the municipal.
- To ensure ready access to courts in the municipal for the promotion of justice.
- To initiate, sponsor or carry out studies that are necessary for the performance of a function conferred by Act 936 or by any other enactment.
- To perform any other functions provided under any other legislation.
- To coordinate, integrate and harmonize the execution of programmes and projects under approved development plans of the Municipal, any other development programmes promoted or carried out by ministries, departments, public corporations and any other statutory bodies and non-governmental organizations.

1.8 THE MUNICIPAL ECONOMY

The structure of the municipal economy is dominated by agriculture/forestry/fishing industry, trade industry and manufacturing industry. Agriculture/ forestry/fishing industry engages 48.2% of the employed population 15 years and older. Trade industry and the manufacturing industry employ 14.7% and 7.4% of the employed population respectively. The rest, 29.1%, are employed by 17 other industries.

1.8.1 Agriculture

The importance of the agricultural sector may be attributed to the favorable climatic condition, fertile soil and generally flexible land tenancy arrangement while the periurban nature of some settlements to Sunyani makes trading a viable enterprise. Intensification of processing of agricultural produce could help grow the manufacturing sector and further create jobs for the unemployed population.

1.8.2 Financial Services

The financial sector has been boosted by the establishment of rural banks in the municipality. Despite the presence of number of banks, access to credit by individuals has always been difficult especially due to lack of collateral. This lack of trust in the private sector is greatly affecting its competitiveness. Mobile money services are also available to facilitate business transactions.

1.8.3 Road Network

Settlements in the municipality are well connected by highways and feeder roads to facilitate socio-economic activities. The total length of highways and feeder roads in the municipality are 120km and 299km respectively. The feeder roads are fairly motorable throughout the year.

1.8.4 Energy

All the major settlements in the municipality are connected to the national electricity grid. There are however significant numbers of communities in the hinterlands which do not have electricity. This does not only lower the standard of living of the people but

also affects the education of children who are required to study ICT as an examinable subject due to lack of access to electricity.

1.8.5 Health

Health services are also provided to the inhabitants of the municipality from a mix of health facilities in both the public and private sector. The facilities include a polyclinic, health centers, Community based Health Planning and Services Compounds (CHPS), clinics and maternity homes. The distribution of health facilities are as follows: one private hospital at Fiapre, two public hospitals at Kwatire and Chiraa, four (4) health centers, Chiraa, Nsoatre and Boffourkrom; nine (9) private clinics at Odumase, Nsoatre and Chiraa. thirty (30) functional CHPS zones distributed across the municipality and 2 maternity homes at Nsoatre and Odumase.

1.8.6 Education

The Department of Education covers all the areas under the jurisdiction of the Sunyani West Municipal Assembly. The Department has seven (7) circuits located within its administrative areas namely Chiraa, Fiapre, Nsoatre and Odomase.

a. Number of Schools

Education services are delivered by both public and private educational institutions. In 2023 the education service recorded a total of 381 educational institutions, out of which 130 are privately owned. Table 1.13 shows the categories of the educational institutions.

b. Enrolment in Basic Schools & Senior Secondary Schools

School enrolment shows the general level of participation in each level of education. It is an indication of the capacity of the education system to enrol students. A trend analysis of the gross and net enrolment for the period 2020 to 2023 showed the following:

- There is a high degree of participation in education at the kindergarten, primary and JHS levels as depicted by high gross enrolment rates of more than 90% for these levels:
- The trend of gross enrolment rates at Senior High School level shows low participation for which it is anticipated that the Free Senior High School Policy measure will help address.
- The differences between gross and net enrolments for the kindergarten, Primary,
 JHS and SHS levels also suggest that a significant percentage of the students enrolled in these levels are either over aged, under-aged or both.

Table 1.14 shows trends in gross and net enrolments for kindergarten, primary, JHS, and SHS from 2020-2023 as at August.

| Level of education | | 2020 % | 2021 % | 2022 % | 2023 as at August |
|--------------------|-----|--------|--------|--------|-------------------|
| | | | | | % |
| KG Enrolment | GER | 157.3 | 158.9 | 147.6 | - |
| | NER | 91.5 | 94.3 | 115.1 | 115.1 |

c. Teacher Availability

Statistics from the Department of Education showed that there is a total of 1,715 teachers at the public basic schools (kindergarten, primary and junior high school), 36 at TVET and 319 at the SHS level. The percentage distribution of the trained teachers

in public schools according to the levels is as follows: Kindergarten, 20.9%, Primary, 42.7%, JHS, 36.4%, SSS, 18.6% and Vocational/TVET, 2.1%. The Department needs to ensure systematic increases in the percentage of trained teachers at all the levels of education for the public basic schools especially kindergarten and primary.

In terms of pupils-teacher ratio (PTR), the ratios are kindergarten, 14:98, Primary, 18:5, JHS, 9:4, TVET, 35:1 and SHS, 17:7. This situation requires that the Department of Education adopts appropriate strategies to increase enrolment levels, particularly at the public basic schools. It is expected that the Free SHS policy measure and similar intervention for TVET will help address the low enrolments at these levels. Refer to Table 1.15 for the details.

Table 1.15: Enrolment of Pupils/Teacher Situation in Public Basic Schools

d. Education Performance

The quality of education may be judged by the performance of pupils/students in a competitive examination which is conducted either locally or nationally. In view of the irregular nature of nationally organized examinations for the lower and upper primary classes in subjects such as English and Mathematics, the Basic Education Certificate Examination, BECE, is used as the basis for assessing the standard of basic education in the municipality.

e. Educational infrastructure and facilities in public basic and senior high schools

Another important element of access to education is the availability of appropriate educational infrastructure (classroom blocks, workshops and teachers' accommodation in deprived communities) and facilities (furniture). A scan of the public-school environment showed that some of the physical infrastructure (classrooms) for teaching and learning at kindergarten, primary, and JSS are in a poor state. The assessment also indicated that all the levels of the public basic schools have major maintenance challenges. Table 1.16 shows educational infrastructure situation in public schools.

Regarding availability of complementary facilities for teaching and learning such as toilet, urinal, water and electricity for kindergarten, primary and JSS, the statistics showed an increase in the number of these facilities in 2022/2023 over that of 2021/2022. In spite of this achievement, about 40 percent of all public basic schools' lack toilet facilities and urinals whilst only a third of the basic schools have potable water systems. The non-availability of these facilities affects teaching and learning and could also affect the health of the pupils/students in the event of an epidemic. It is important to mention that although most schools do not have their own potable water systems, they have very high access to potable water systems in their communities. Such schools only require receptacles for water storage and use.

1.8.7 Market Centres

There are about 14 food markets in the municipality some of which operate weekly and daily to ensure access of consumers to staple foods. Of these markets, the major ones are Odomase (daily), Nsoatre (weekly & daily), Fiapre (daily) and Chiraa (weekly & daily) which are patronized by both local households/traders and external traders. There are also two maize markets in Odumase. (Odumase No. 1 maize market and Awuah Domase maize market). The minor markets serve the needs of mainly the local people and traders. Infrastructure facilities in some of the major markets are deplorable while facilities in minor markets are very poor. Water and sanitation facilities are generally inadequate in most of the major markets while in the case of the minor markets they do not exist. Availability of complementary facilities is needed to ensure food safety for consumers.

1.8.8 Environment, Water and Sanitation

Water and related sanitation infrastructure and services are important in promoting good health. The provision of sustainable rural water services is the major pre-occupation of the Assembly. This water service delivery approach enables the Assembly to plan for both new water infrastructure and post construction Management of existing rural water facilities.

It is expected that the Assembly will sustain the momentum for the implementation of the service delivery methodology to ensure universal access to potable water in rural areas. The Water and Sanitation Plan for 2020 to 2023 will be the framework for implementation of water and sanitation activities for rural settlements.

Ghana Water Company Limited (GWCL) which is located at Sunyani is responsible for urban water services. It services all the major settlements in the municipality. Aside from the erratic nature of the services most of the newly developed parts within the urban space do not enjoy water services. This situation has compelled the Assembly to provide water services to such a population. The Assembly would dialogue with management of GWCL to ensure the improvement of water services to urban residents.

Water related sanitation services such as provision of hygiene education, toilet facilities for institutions and promotion of household toilet construction are critical components of rural water service delivery. From 2011 to 2016 the Assembly has implemented two major rural water interventions which provided new water and sanitation infrastructure, hygiene education and promoted the construction of household toilets. Despite the implementation of these projects, sanitation facilities in basic schools are woeful while open defecation has been a major challenge for rural communities.

1.9 KEY ISSUES/CHALLENGES

Despite the success achieved by the Assembly, there are still some key challenges that need to be looked at.

- 1. Slow growth of the SMEs
- 2. High post-harvest losses, inadequate storage Facilities and transportation systems
- 3. Inadequate Education and Health infrastructure and equipment
- 4. Inadequate access to sustainable potable water and sanitation services
- 5. Indiscriminate disposal of waste
- 6. Depletion of existing forest reserves, vegetation and wildlife.
- 7. Vulnerability and variability to climate change.
- 8. Poor surface conditions of feeder and urban road network
- 9. Inadequate infrastructure for public safety, security, and justice delivery

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY PROGRAMME 2.1: MANAGEMENT AND ADMINISTRATION

1. Budget Programme Objectives

- To provide support services, effective and efficient general administration and organization of the Municipal Assembly.
- To ensure sound financial management of the Assembly's resources.
- To coordinate the development planning and budgeting, functions of the Assembly and to provide human resource planning and development of the Municipal Assembly.

2. Budget Programme Description

The program seeks to perform the core functions of ensuring good governance and balanced development of the Municipality through the formulation and implementation of policies, planning, coordination, monitoring and evaluation in the area of local governance. The Program is being implemented and delivered through the offices of the Central Administration and Finance Departments. The various units involved in the delivery of the program include; General Administration Unit, Budget Unit, Planning Unit, Finance Department, Procurement Unit, Human Resource, Internal Audit and Records Unit.

Total staff strength of one hundred and seventy-one (171) is involved in the delivery of the programme. They include: Administrators, Budget Analysts, Accountants, Planning Officers, Revenue Officers, and other support staff (i.e. Executive officers, and drivers). The Program is being funded through the Assembly's Composite Budget with Internally Generated Fund (IGF) and Government of Ghana transfers such as the District Assemblies' Common Fund and District Development Facility.

SUB-PROGRAMME 2.1.1 General Administration

- 1. Budget Sub-Programme Objective
- To provide administrative support and ensure effective coordination of the activities of the various departments and quasi institutions under the Municipal Assembly.
- To ensure the effective functioning of all the sub-structures to deepen the decentralization process.

2. Budget Sub-Programme Description

The General Administration sub-programme looks at the provision of administrative support and effective coordination of the activities of the various departments through the Office of the Municipal Co-ordinating Director. The sub-programme is responsible for all activities and programmes relating to general services, procurement/stores, transport, public relation and security.

The core function of the General Administration unit is to facilitate the Assembly's activities with the various departments, quasi institution, and traditional authorities and also mandated to carry out regular maintenance of the Assembly's properties. In addition, the Municipal Security Committee (MUSEC) is mandated to initiate and implement programmes and strategies to improve public security in the Municipality. Under the sub-programme the procurement processes of Goods and Services and

Assets for the Assembly and the duty of ensuring inventory and stores management is being led by the Procurement/Stores Unit.

The number of staff delivering the sub-programme is eighteen (18) with funding from GoG transfers (DACF, DDF etc.) and the Assembly's Internally Generated Fund (IGF). Beneficiaries of this sub-program are the departments, Regional Coordinating Council, quasi institutions, traditional authorities, non-governmental organizations, civil society organizations and the general public. The main challenges this sub programme will encounter are inadequate, delay and untimely release of funds, inadequate office space, and non-decentralization of some key departments.

3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 2.1.2 Finance and Audit

1. Budget Sub-Programme Objective

- To insure sound financial management of the Assembly's resources.
- To ensure timely disbursement of funds and submission of financial reports.
- To ensure the mobilization of all available revenues for effective service delivery.

2. Budget Sub-Programme Description

This sub-programme provides effective and efficient management of financial resources and timely reporting of the Assembly finances as contained in the Public Financial Management Act, 2016 (Act 921) and Financial Administration Regulation, 2004 and audit functions as stipulated in the Internal Audit Regulation, 2011 (L.I 1994). It also ensures that financial transactions and controls are consistent with prevailing financial and accounting policies, rules, regulations, internal controls and best practices.

The sub-program operations and major services delivered include: undertaking revenue mobilization activities of the Assembly; keep, render and publish statements on Public Accounts; keep receipts and custody of all public and trust monies payable into the Assembly's Fund; and facilitates the disbursement of legitimate and authorized funds. The Internal Audit Unit is authorized to spearhead the implementation of internal audit control procedures and processes to manage audit risks, detection and prevent misstatement of facts that could lead to fraud, waste and abuse to the Assembly.

The sub-programme is manned by seven (7) officers from finance, Ten (11) officers from the Internal Audit unit, Revenue Officers and Commission collectors with funding from GoG transfers and Internally Generated Fund (IGF). The beneficiaries of this sub-program are the departments, allied institutions and the general public. This sub-programme in delivering its objectives is confronted by inadequate office space for accounts officers, inadequate data on ratable items and inadequate logistics for revenue mobilization and public sensitization.

3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 2. 1.3 Human Resource Management

1. Budget Sub-Programme Objective

- To achieve institutional performance goals that are linked to the individual and team performance objectives as the basis for measuring performance results and merit.
- To provide Human Resource Planning and Development of the Assembly.
- To develop capacity of staff to deliver quality services.

2. Budget Sub- Programme Description

The Human Resource Management seeks to improve the departments, division and unit's decision making and build capacity of the manpower which would ultimately improve the workforce and organizational effectiveness. In carrying out this subprogramme it is expected that productivity would be enhanced at the Assembly as well as decision making in the management of Human Resource.

Major services and operations delivered by the sub-program include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies in the Municipality.

Under this, five (5) staff will carry out the implementation of the sub-programme with main funding from GoG transfer and Internally Generated Fund. The work of the human resource management is challenged with inadequate staffing levels, inadequate office space and logistics. The sub-programme would be beneficial to staff of the Departments of the Assembly, Local Government Service Secretariat and the general public.

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly's measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 2.1.4 Planning, Budgeting, Coordination and Statistics

- 1. Budget Sub-Programme Objective
- To facilitate, formulate and co-ordinate the development planning and budget management functions and the monitoring and evaluation systems of the Assembly.
- To collect, compile, analyze, publish and determinate demographic, health and economic data.

2. Budget Sub- Programme Description

The sub-programmes coordinate policy formulation, preparation and implementation of the Municipal Medium-Term Development Plan, Monitoring and Evaluation Plan and the Composite Budget of the Municipal Assembly. The three (3) main units responsible for the delivery of these duties are the Planning, Budget and statistics Units. The main sub-program operations include; preparing and reviewing Municipal Medium-Term Development Plans, Monitoring and Evaluation Plans, Annual Budgets, Data Collection and Analyses. The sub programmes ensures that budgets approved by the General Assembly are complied with. It also Coordinates and develops annual action plans, monitor and evaluate programmes and projects. The unit also ensures periodic monitoring and evaluation of entire operations and projects of the Assembly to safeguard compliance of rules, value for money, organization of stakeholder meetings, public forum and town hall meeting.

Twenty-Four (24) officers will be responsible for delivering the sub-programme comprising of Budget Analysts, Planning Officers and the statisticians. The main funding source of this sub-programme is DACF, GoG transfer and the Assembly Internally Generated Funds. Beneficiaries of this sub- program are the departments, allied institutions and the general public.

The challenges hindering the effective and efficient work done of this sub-programme are inadequate logistics for public education and sensitization, delay in the release of funds amongst others.

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 2.1.5 Legislative Oversights

1. Budget Sub-Programme Objective

To ensure full implementation of the political, administrative and fiscal decentralization reforms.

2. Budget Sub- Programme Description

This sub-programme formulates appropriate specific Municipal policies and implements them in the context of national policies. These policies are deliberated upon by its Zonal/Town/Area Councils, Sub-Committees and the Executive Committee. The report of the Executive Committee is eventually considered, approved and passed by the General Assembly into lawful Municipal policies and objectives for the growth and development of the Municipality.

The office of the Honorable Presiding Member spearheads the work of the General Assembly which consists of 57 Assembly members including the Municipal Chief Executive and the Member of Parliament and ably assisted by the Office of the Municipal Coordinating Director. The main unit of this sub-programme is the Zonal/Area Councils, Office of the Presiding Member and the Office of the Municipal Coordinating Director.

The activities of this sub-programme are financed through the IGF and DACF funding sources available to the Assembly. The beneficiaries of this sub-programme are the Zonal/Town/Area Councils, local communities and the general public. Efforts of this sub-programme are however constrained and challenged by the inadequate logistics to the Zonal/Town/Area Councils of the Assembly.

3. Budget Sub-Programme Results Statement

Table 13 indicates the main outputs, its indicators and projections by which the Municipal measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Municipal's estimate of future performance.

PROGRAMME 2.2: SOCIAL SERVICES DELIVERY

1. Budget Programme Objectives

- To formulate and implement policies on Education in the Municipality within the framework of National Policies and guidelines.
- To formulate, plan and implement Municipal health policies within the framework
 of national health policies and guidelines provided by the Minister of Health and
 to accelerate the provision of improved environmental sanitation service.
- To assist the Assembly to formulate and implement social welfare and community development policies within the framework of national policy and to attain universal births and deaths registration in the Municipal.

2. Budget Programme Description

The Social Service Delivery program seeks to harmonize the activities and functions of the following agencies; Ghana Education Service, Youth Employment Authority and other Youth Authorities operating at the Municipal level. To improve Health and Environmental Sanitation Services. The program aims at providing facilities, infrastructural services and programmes for effective and efficient waste and sanitation management, protection of the environment and the promotion of public health.

PROGRAMME 2.5: ENVIRONMENTAL MANAGEMENT

1. Budget Programme Objectives

- To ensure that ecosystem services are protected and maintained for future human generations.
- To manage disasters by coordinating resources and developing the capacity of communities to respond effectively to disasters and improve their livelihood through social mobilization, employment generation and poverty reduction projects.

2. Budget Programme Description

The Environmental Management offers research and opinions on use and conservation of natural resources, protection of habitats and control of hazards. It also seeks to promote sustainable forest, wildlife and mineral resource management and utilization.

Disaster Prevention and Management programme is also responsible for the management of disasters as well as other emergencies in the Municipality. It seeks to enhance the capacity of society to prevent and manage disasters and to improve the livelihood of the poor and vulnerable in the rural communities through effective disaster management, social mobilization and employment generation.

Staffs from NADMO and Forestry and Game Life Section of the Forestry Commission in the Municipality are undertaking the Programme with funding from GoG transfers and Internally Generated Funds of the Assembly. The beneficiaries of the program include urban and rural dwellers in the Municipality.

SUB-PROGRAMME 2.5.1 Disaster Prevention and Management

1. Budget Sub-Programme Objective

To manage disasters by coordinating resources and developing the capacity of communities to respond effectively to disasters and improve their livelihood through social mobilization, employment generation and poverty reduction projects.

2. Budget Sub-Programme Description

The National Disaster Management Organization (NADMO) section under the Assembly is responsible for delivering the sub-programme. It seeks to assist in planning and implementation of programmes to prevent and/or mitigate disaster in the Municipality within the framework of national policies. The sub-program operations include;

To facilitate the organization of public disaster education campaign programmes to create and sustain awareness of hazards of disaster and emphasize the role of the individual in the prevention of disaster. To assist and facilitate education and training of volunteers to fight fires including bush fires or take measures to manage the effects of natural disasters. Prepare and review disaster prevention and management plans to prevent or control disasters arising from floods, bush fires, and human settlement fire, earthquakes and other natural disasters. To participate in post disaster assessment to determine the extent of damage and needs of the disaster area, co-ordinate the receiving, management and supervision of the distribution of relief items and to facilitate collection, collation and preservation of data on disasters in the Municipality.

The sub-programme is undertaken by officers from the NADMO in collaboration with the Municipal Assembly, Ghana National Fire Service (GNFS) section with funding from the GoG transfers and Assembly's support from the Internally Generated Fund (IGF). The sub-programme goes to the benefit of the entire citizenry within the Municipality. Some challenges facing the sub-programme include untimely releases of funds to undertake such programme and relief items to support disaster victims and inadequate logistics for public education and sensitization.

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.

SUB-PROGRAMME 2.5.2 Natural Resources Conservation and Management

1. Budget Sub-Programme Objective

- To ensure that ecosystem services are protected and maintained for future human generations.
- To implement existing laws and regulations and programmes on natural resources utilization and environmental protection.
- Increase environmental protection through re-afforestation.

2. Budget Sub-Programme Description

Natural Resource Conservation and Management refers to the management of natural resources such as land, water, soil, plants and animals, with a particular focus on how management affects the quality of life for both present and future generations.

Natural Resource Conservation and Management seek to protect, rehabilitate and sustainably manage the land, forest and wildlife resources through collaborative management and increased incomes of rural communities who own these resources.

The sub-programme brings together land use planning, water management, biodiversity conservation, and the future sustainability of industries like agriculture, mining, tourism, fisheries and forestry. It also recognizes that people and their livelihoods rely on the health and productivity of our landscapes, and their actions as steward of the land plays a critical role in maintaining its health and productivity. The sub-programme is spearheaded by Forestry Section and wildlife Section under the Forestry Commission.

The funding for the sub-programme is from Central Government transfers. The sub-programme is beneficial to the entire residents in the Municipality. Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.

The table indicates the main outputs, its indicators and projections by which the Municipal Assembly measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimate of future performance.
