PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

With a total land area of 8,352sq, West Gonja Municipal Assembly is one of the Two Hundred and Sixty-One (261) Metropolitan, Municipal and District Assemblies (MMDAs) in Ghana and among the Seven (7) MMDAs in Savannah Region. Since its establishment on 23rd December 1988 by L.I PNDC Law 207, the district has undergone number of restructurings. In 2004, under the L.I 1775, Central Gonja District was carved out of West Gonja and in 2012 North Gonja District was also carved out under the L.I 2069. The West Gonja district was elevated to a Municipal in 2020 under the L.I 2398. The capital town is Damongo which is also the regional capital of the newly created Savannah Region.

Population Structure

According to the 2020 population and housing census report, the total population of the district stands at Sixty-Three Thousand, Four Hundred and Forty-four (63,499). This is made up of 32,270 males and 31,179 females implying 50.81% and 49.10% respectively. It is the only district within the newly created Savannah Region that has more urban settlers than rural settlers (39150 and 24299 respectively). The district has a low population density of 13.5 per person sq km which should have implied that there are more lands for other productive ventures but 30% of the landmass is occupied by game forest reserve.

Unlike the agriculture livestock and fishery, forestry (Forest reserves) and crop sector are key to West Gonja Agricultural Industry. Farmers continue to rely on simple farm tools though gradual employment of tractor and harvester services are being used.

Energy

The Energy sector is vital for the social and economic development in the Municipality. The main source of energy in the Municipality is the national grid through the National and Rural Electrification Programme. Currently, 85% of communities in the district is connected to electricity. However, the remaining 15% of the communities, which are not connected to the national grid either have some form of electricity, especially solar lights at some vantage and critical places like the CHPS. In terms of cooking, charcoal and fire wood are the main sources of energy in the Municipality.

The West Gonja Municipal Hospital is the highest level of health care facility in the Municipal. The Municipality is served by twenty- seven (27) health care facilities including one municipal Hospital. Apart from West Gonja hospital and SAGISS health center which is managed by CHAG, all the remaining 25 facilities are managed by Ghana health services. There is a high trained teacher – student ratio of 1: 51 and the 2022 B.E.C.E results put the district's pass at 35.7%

Market Centres

The municipality has few marketing centers which includes Damongo, Achubunyo, and Busunu which are periodic (7 days). Despite the vibrant nature of market activities in these centres especially on their market days, facilities such as sheds, stalls, stores and places of convenience are inadequate. When these facilities are provided it will not only increase IGF collection but also facilitate movement of goods and services to these centers and beyond.

Commerce in the district largely involves the sale of provisions, electrical, electronics, clothing, construction materials, vehicle parts, agrochemicals, cosmetics, drugs, utensils, and food stuffs.

Water and Sanitation

West Gonja has relatively low potable water coverage, reaching about 60% of the population. The municipality has a low water table resulting in the inability to hit water when boreholes are drilled Less than 20 percent of the people in the Municipality have access to sanitation facilities. Various types of sanitation facilities are being used in the Municipal. According to West Gonja Environmental Health Unit (WGEHU), most KVIP and public Pit Latrine constructed in West Gonja are a 10-seater unit. Less than 20% of the population have any acceptable form of managing solid waste and only 24 out of 78 communities are ODF.

Tourism

Thirty percent (30%) of the landmass of the district is a forest reserve which hosts the Mole National Park, one of the iconic tourist attractions in the district and Ghana as a whole. Tourist sites that are begging to be developed fully are the Larabanga mystic stone and mosque, Konkore waterfalls and ancient cave.

Environment

The natural vegetation of West Gonja is Guinea Savannah. The vegetative cover of the district is dictated by the soil types and human activities, such as shifting cultivation, slash and burn method of land preparation and charcoal burning. The major tree pieces are sheanut, dawadawa, baobab, acacia, neem, papao, senya, mahogany, poproeum, rosewood and few ebonies. The trees are scattered except in most valleys where isolated woodland or forest are found. Grass grows in tussocks and may reach 2.7m during the rainy season. This indicates that the area is suitable for crops such as millet, sorghum, maize and groundnuts. The district is situated in an old geological area. The rocks are mainly of voltaian formation with isolated Cambrian rocks, which contain valuable minerals such as gold.

Key Issues/Challenges

Revenue and Expenditure Performance

The general outlook of the revenue and expenditure performance of the West Gonja Municipal Assembly shows one that has been affected by the general external shocks experienced by the country and the world at large. This is so because the district is heavily dependent on transfers from the central government and donor partners.

Overall, the district has received about 24.4% of the revenue budgeted for and spent to

about 35% of the total expenditure intended.

As at August 2023, only 37% of the budgeted IGF has been collected which is just 4.8% of the total revenue received, clearly showing how the district is dependent on central government and donor partners. The central government through payment of compensation and goods and services transfer to the departments is the highest contributor to the budget of the West Gonja

Municipal Assembly. Donor partners through the Ghana Secondary Cities Support programme (GSCSP) follow as the second most contributor to district's budget In terms of expenditure, compensation continues to lead as the area the district spent most, followed by goods and services and capital expenditure.

Below are detailed breakdown of revenue and expenditure performance as at August 2023
