PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

The Garu District was created out of the Garu-Tempane District in 2017 and forms part of the fifteen (15) Districts in the Upper East Region of Ghana. The Garu District Assembly was established in 2017 as defined by the Local Government Legislative Instrument (L.I. 2351) with the administrative capital at Garu.

Population Structure

The 2021 population and housing census gave the District Population as 71,774. The male population in the District is 34,434 representing 47.98 percent of total population while that of the female population is 37,340 also representing 52.02 percent. Urban population stands at 11, 807 which is segregated into 5,712 for male and 6,195 for female. Rural population stands at 59,867 which is segregated into 28,722 for male and 31,145 for female.

Vision

To become a highly professional Local Government Institution that creates opportunities for all, especially women and the vulnerable to effectively participate in decision making process, and human resource development in partnership with other public sector organizations and the private sector'.

Mission

The Garu District exists to improve the Socio-economic condition of its people by mobilizing the necessary human and material resources in an efficient and effective manner towards developing the District in a sustainable manner.

Goals

"To build a prosperous society with equal opportunity through improved quality of education, enhanced livelihoods, improved health care services and healthy conditions

and improved local governance, public safety and public security while safeguarding the environment by the year 2022."

Core Functions

- The core functions of the Garu District Assembly are provided for under Section (12) of the Local Governance Act, 2016 Act 936. They are as follows:
- · To exercises political and administrative authority;
- To provide guidance and direction and supervises all administrative authorities in the District;
- · To promote local economic development
- To exercise deliberative, legislative and executive functions;
- Responsible for the overall development of the District through preparation of development plans, budgets, and submission to the National Development Planning Commission (NDPC) through the Regional Coordinating Council (RCC) for approval;
- To formulates and executes planned programmes and strategies for effective resource mobilization that promotes and supports productive economic activities as well as social development;
- To initiate programmes for the development of basic infrastructure and provide municipal works and services in the district;
- Be responsible for the development, improvement and management of human settlements and the environment in the district;
- Responsible for the maintenance of security and public safety in the District;
- To co-ordinates, integrates and harmonizes the execution of programmes and projects under approved development plans and that of other departments under it; and
- Discharges other functions as may be directed by the President of the Republic of Ghana

District Economy

Agriculture

Agriculture is the mainstay of the district economy employing about 85.2% of the labour. Skilled agricultural forestry and fishery workers are the dominant occupation in the district recording 85.2%. The majority (84.4%) of males find themselves within the skilled agricultural forestry and fishery compared to 82.8% of females engaged in the same

sector. This leading occupational category does not require skilled expertise and high educational training. The major outputs of farmers are maize, millet, groundnuts, onions, watermelon, and livestock such as pigs, cattle, sheep and goats. Poultry, especially guinea fowl production, is quite significant.

The people of the Garu District are predominantly subsistent farmers depending largely on rain fed agriculture. During the rainy season which lasts for just 3 of the 12 months in the year, they cultivate maize, sorghum, millet, to mention but a few. It is however common to experience crop failure among most families for the rainy season crops because of the uneven distribution of the rainfall.

Because of the frequent crop failure resulting in food insecurity in the area, most of the youth often migrate to the cities in search of non-existent jobs where they are most often subjected to dehumanizing conditions. Most of the women and the elderly who are left behind often engage in dry season vegetable farming often depending on shallow wells they dig along valleys and near dugouts to grow vegetables such as onion, pepper, cabbage and watermelon.

However, by March of every year, most of these shallow wells normally dry up and they have to wait and idle until July when the rains start and preparation for the wet season farming start. During this period, they sell their guinea fowls and small ruminants such as goats and sheep which they often keep in small scale to solve pressing family issues.

The District is also implementing the Government Flagship programmes of Planting for Food and Jobs (PFJ) and Rearing for Food and Jobs (RFJ).

Export and Rural Development (PERD) (5,000 Cashew seedlings has been nursed and distributed to farmers and FBOs) in the District.

Road Network

Roads in the District are mainly feeder roads. Total engineered roads are 277.1km and the total un-engineered roads are 122.9km. There are lorry parks in all the markets as well as a newly demarcated one in Garu but none is fully developed yet. The Garu lorry park has seen a tremendous facelift. Roads within the District are network to all the major towns. The Assembly is still opening more feeder roads to link all communities and major

town together to facilitate easy transportation of human beings and goods and services. The District does routine maintenance of feeder roads to make them well-functioning for commuters.

The District cannot boast of any tarred road linking any community or major town except some few roads within the Garu township which were half way done and are not complete.

Energy

In line with the SDG of ensuring access to affordable, reliable, sustainable and modern energy for all and working toward target by 2030, the rural electrification programme is making tremendous effort in the District for more communities to be connected to the national grid. The District does not set target for electricity since the expansion is largely controlled by the Ministry of Energy. However, the District has been implementing a four-year electricity expansion project under the Tengashep. A number of communities have been completed under phase I and II of the project. The District Assembly also procured a total of 650 low tension electricity poles which were sent to various communities for extension of already existing electricity to parts of the communities that were not covered.

Following this, the District has for the year under review connected about 390no. households to electricity. The percentage change in number of households with access to electricity recorded 0% in the year 2018. Presently, the percentage of communities covered by electricity is 72%.

Health

There are a total of 34 health facilities in all the Seven sub-district. These include 2 private and 32 public facilities. There are no doctors in district. Under the Government agenda 111 projects Garu will be benefiting from a district hospital. The work is about 60% completed.

Table 2 below depicts the health facilities by Sub-Districts

| Denugu | 5 | 1 | 0 | 0 | 0 | 0 | 6 |
| Total | 28 | 2 | 0 | 0 | 0 | 4 | 34 |

Education

The District has a total of One Hundred and Forty-Five (145) Educational Institutions comprising Thirty-Nine (39) public KG and Eighteen (18) private Nurseries/KGs, Thirty-Nine (39) public Primary and Twenty (20) private primary schools, Nineteen (19) public Junior High Schools, Nine (9) private Junior High schools, One (1) public SHS and No Technical/Vocational School.

All primary Schools have pre-school facilities since it is the goal of the Nation to integrate Early Childhood Development Centres in the formal education system. A number of NGOs, Collaborators and Development Partners have played and continue to play various roles in the development of education in the District.

The number of pupils/students per teacher ratio (PTR), and pupil/student per trained teacher ratio (PTTR) are key indicators of quality education and efficiency in schools. The PTR for KG improved recorded 41:1, while at the primary level, PTR recorded 52:1. At the Junior High School level, PTR recorded 26:1.

Market Centres

The District has 8 Markets which include; Garu, Farfar, Yizidug, Denugu, Songo, Dabila, Avosum Markets and Zaari. The Garu market is observed for every three days which is a major marketing centre where commodities are traded. There are also other nearby Markets in the neighbouring District such as Woriyanga, Basyonde, Bugri, Tariganga, Sinorgo, Benwoko, Konkomada and Bawku. As a District bordered by a number of

Districts and Togo, we enjoy inter-Districts Trade and International Trade particularly Senkanse, a popular commercial town in Togo.

There is one Bank in the District, the BESSFA Rural Bank and, and a credit union which are engaged in savings mobilizations and provision of credit facilities to both private and public operators. Other mobile money merchants also exist to facilitate businesses. These include MTN Mobile Money, Vodafone Cash and Airtel Tigo.

There is one FM station in the District (Quality FM) which plays major role in advertising businesses.

Water and Sanitation

The Garu District has two (2) Small Town Water and Sanitation Project in Garu and Denugu and total number of 669 boreholes. Most of the non-functional boreholes have Nira Pumps. There are also Fifty-Six (56) Hand-dug wells with pump but only nine are functional though seasonal. The current percentage of population with sustainable access to safe water sources (coverage) all year round increased recorded 68% in the District. However, this coverage could be debated taking into consideration the distance, quality, all year round potable water facilities, spatial distribution, and population factors.

It is the intention of the District Assembly to provide similar Small town water and sanitation systems for Kugri and Worikambo communities in the near future.

The existing sanitation facilities in the district include Septic tanks, Ventilated Pit Latrine (VIP), Kumasi Ventilated Improved Pit Latrine (KVIP) and Water Closets. Currently, about 72% of hhouseholds in the district have access to improved toilet facilities.

A total of sixty-five percent (65%) of houses in rural area have access to improve toilet facilities while forty-two percent (42%) houses in urban areas have access to improve toilet facilities. Currently, there are 21 public toilets in the District, comprising 12 KVIP, 1 Enviroloo and 8 Sceptic tanks. There are 62 household Water Closets, 3,438 households' VIPs and 45 households KVIPs.

Giving a total of 3,892 improved latrines across the District. While 2,948 improved latrines are under construction. More than 75% of schools with standard structures have KVIPs.

Sanitation Marketing is a new concept that is aimed at encouraging households to save towards acquiring improve latrines and also assisting individuals especially Latrine Artisans and dealers of building inputs to treat the provision of sanitation facilities, especially Household Latrines, as business.

The Assembly through the GoG/UNICEF WASH Programme has trained 30 Artisans and the idea is to train this Artisan on entrepreneurship so that they would sell the idea of constructing House Latrines to House Holds and assist interested House Holds to construct these facilities.

Also, the Assembly with the support from UNICEF has established District Sanitation Facilities

(DSF) to enable household to access this fund on credit bases to construct improve toilet facilities.

Under the UNICEF supported Community Led Total Sanitation (CLTS) programme, 118 communities have been declared Open Defecation Free (ODF) out of the total of 142 communities across the District

It is currently estimated that 60% of current population have access to sanitation facilities.

Tourism

The District have a few undeveloped tourist attraction centres. They are the old slave market at Senebaga and the Conical Hill at Kugri. These tourist centres need to be developed to make them attractive for tourist. This will help provide jobs for the people of the areas and also provide revenue for the Assembly to undertake development in the District.

Environment

The built environment consists of housing, which is mostly made of switch in the rural areas, and blockhouses in the urban and other big settlements. There are also markets and other socioeconomic infrastructure. However, apart from the Garu Township there are no layouts in other communities. This promotes haphazard development even in Garu

Township where there is a layout. There are also some protected forest reserves and community forests.

Another significant feature of the settlement pattern is its dispersed nature. This makes it seemingly difficult to access development projects such as water facilities, electricity, sanitation facilities. It cost time and money to serve one community adequately because of our settlement system. This leads to many people walking longer distances to access educational and health services. As farmlands are incorporated into the settlement structures, houses are built far apart from one another creating a dispersed scene. Such a pattern has other implications for the provision of certain basic facilities such as health, education water, sanitation and electricity.

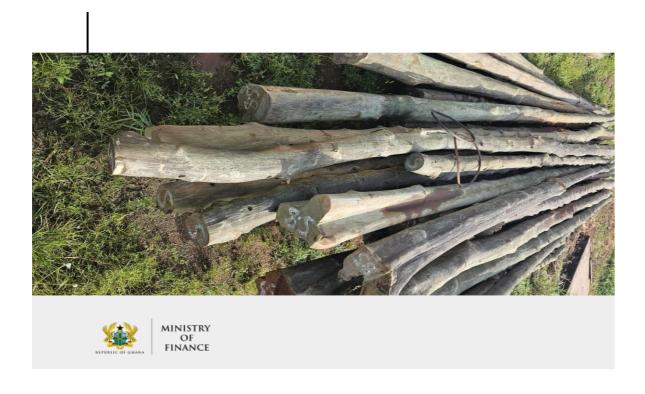

Key Issues/Challenges

- · Inadequate funds from central Government
- Delay in the release of funds from central Government
- Inadequate vehicles for official use
- · Poor road network in the District
- Inadequate health care infrastructures (e.g. CHPS Compounds)
- Lack of District hospital
- Inadequate educational infrastructures (e.g. classroom block)
- Lack of educational or health training institution (e.g. Teacher/Nursing training college)
- · Inadequate school furniture
- Inadequate opportunities for persons with disabilities to contribute to society
- Growing incidence of child marriage, teenage pregnancy and associated school dropout rates
- · Insufficient logistics to maintain boundaries or protected areas
- Poor waste disposal practices
- Poor drainage system
- Improper disposal of solid and liquid waste

- Poor quality ICT services/Inadequate ICT Infrastructure
- Poor sanitation and waste management □ Inadequate spatial plans
- Inadequate rehabilitation centers
- · Low quality and inadequate agriculture infrastructure
- · High dependence on wood fuel
- Forest fires

Achievements in 2023

- · Fixed handpump at the slaughter house
- · Procured fifteen (15) tricycles
- Procured of motorbikes
- · Procured of seedling
- Suppled and installed of 82No. solar light
- Procured of 200No. School uniform.
- Procured of 95.8 low tension pools
- Constructed of 1No. 3unit classroom block
- · Constructed 8No. boreholes.

SUB-PROGRAMME 1.5 Legislative Oversights

Budget Sub-Programme Objective

To ensure full implementation of the political, administrative and fiscal decentralization reforms.

Budget Sub- Programme Description

This sub-programme formulates appropriate specific district policies and implements them in the context of national policies. These policies are deliberated upon by its Area Councils, Subcommittees and the Executive Committee. The report of the Executive Committee is eventually considered, approved and passed by the General Assembly into lawful district policies and objectives for the growth and development of the district.

The office of the Honorable Presiding Member spearheads the work of the Legislative Oversight role and ably assisted by the Office of the District Coordinating Director. The main units of this sub-programme are the Area Councils, Office of the Presiding Member and the Office of the District Coordinating Director.

The activities of this sub-programme are financed through the IGF, and DACF funding sources available to the Assembly. The beneficiaries of this sub-programme are the Area Councils, local communities and the general public.

Efforts of this sub-programme are however constrained and challenged by the inadequate logistics and funds to the Area Councils of the Assembly.
