PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

The Asunafo South District is one of the Six (6) District/Municipal Assemblies in the Ahafo Region of the Republic of Ghana. The Legislative Instrument 2093 in line with government's objective of deepening decentralization established the district in November 2004. The district capital is sited at Kukuom

Population Structure

According to the 2021 Population and Housing Census of Ghana, the population of the district is 91,693. The males form 46,947 representing 51.2% and 44,746 females representing 48.8%.

The district has rural population of 62,124 (67.8%) and urban population of 29,569 (32.2%). This shows that the district is rural in nature with scattered settlements. The total land size of the district is **922sqkm** with 268.53 km2 covered by forest reserves. This area forms about 3.1% of the total regional land area of Ahafo.

Vision

A world-class Local Government Entity providing Cutting Edge Services to the people

Mission

The Asunafo South District Assembly exists to provide services such as education, health, water and sanitation with other development partners and productive sector whilst supporting the development of other economic activities with the core purpose of improving the living conditions of the people in the District

Goals

The goal of the Asunafo South District Assembly is to enhance the socio-economic and political well-being of the people within the District through effective resource mobilization

Core Functions

Section 12(1-19) and 13(1-8) of the Local Governance Act, 2016 (Act 936) broadly outlines the mandate and functions of the district Assemblies.

- The Assembly exercises political and administrative authority, provides guidance, gives direction to, co-ordinates and supervises all other administrative authorities in the District
- To promote the overall development of the District through the preparation and implementation of development plans and budgets
- To Formulate and execute plans, programmes and strategies for the effective mobilization of the resources necessary for the overall development of the District
- Promote and support productive activities and social development in the District and remove any obstacle to initiative and development.
- Initiate programmes for the development of basic infrastructure and provide good services in the District.
- Responsible for the development, improvement and management of human settlement and the environment in the District.
- In collaboration with the appropriate National and Local security agencies, be responsible for the maintenance of security and public safety in the District.
- Ensure ready access to courts in the District for the promotion of justice.
- Initiate, sponsor or carry out such study as may be necessary for the discharge of any of the functions conferred by the Act or any other enactment.

District Economy

The economy of Asunafo South District is made up of agriculture, industry, commerce and the service sectors. Agriculture is the predominant economic activity. However, this is done largely at the subsistence level except cocoa, which is primarily for export.

The industrial sector is made up of few agro-processing facilities, while the commercial and the service sectors consist of trading in manufactured goods, foodstuffs and the rendering of services like hairdressing, transportation and other footloose businesses. About 61.1% of the labour force is employed in the agricultural sector, 8.4% in industry

with the commercial and service sector absorbing 11.7%. The number of people employed in the agricultural sector gives an indication of the rural nature of the district. This also implies that any intervention in the agricultural sector stands to benefit majority of the people. The agricultural sector thus deserves a lot of attention

Agriculture

Agriculture in the district is still at the rudimentary stage relying on hoes, cutlasses and rainfall. Shifting cultivation, bush burning and bush fallowing are the common farming practices used by farmers. 79.1% of the population are economically active, of which 74.2% are skilled in agricultural, forestry and fishery works.

Farmlands are mostly acquired through share cropping (Abunu/Abusa). This forms about 16.4% of acquisition of farmlands in the district. The other forms of land acquisition are leasehold (10.5%), freehold/outright purchase (13.2), while over half (58.8) of farmlands in the district are family owned. The farm sizes are small. Averagely, farm size ranges from 1.5 - 2 acres for food crops and five acres for cocoa. About 66.4% of farmers are engaged in mixed cropping with about 11.2% engaged in mono cropping cultivating only cocoa for the export market. There are no organized irrigation schemes in the District. Irrigation is mainly caused by the use of water pumps along the Asunafo South River basin.

Financing of agriculture in the District is mostly through personal savings. Although there are financial institutions like the Agricultural Development Bank at Kwapong, the Ghana Commercial Bank in Sankore and a rural bank found in Kukuom, available records indicate that greater part of the loans granted by these banks went to the cocoa farmers. This is because cocoa farmers are those who can use their cocoa farms as collateral security for the loans. Table 1.8 shows the sources of funding to farmers within the District

Road Network

The district has about 70km-tarred roads, connecting the major towns with over 200km feeder roads linking the farming communities. The condition of roads especially in the remotest part of the District are in bad shape and very difficult to use at certain times of the year especially during the rainy season. The unpaved roads also become dusty in the

dry seasons. The condition of roads, especially in the remotest part of the District are in bad shape and very difficult to use at certain times of the year especially during the rainy season. The unpaved roads also become dusty in the dry seasons. Following the government's policy of ensuring easy access of products to and from market centers, the Assembly as the final policy implementer has also intensified upgrading of its feeder roads with the help of Assembly's own acquired Grader and the DRIP machinery provided by government. All major roads linking various communities in the district are feeder roads except the Section of the Goaso-Bibiani and Noberkaw – Sankore Highways.

Energy

The commonest source of energy for domestic purposes is firewood and charcoal. These are used mainly for cooking, baking and smoking fish. The continuous and extreme reliance on firewood and charcoal has environmental consequences. The persistent extraction of firewood may cause degradation of the vegetative cover and the extinction of certain species of trees in the forest resources. There should also be the need for intensive education on the use of LPG. Other energy sources are fuel used mainly to power water pumps, spraying machines for crops, generators and for vehicles. Some communities in the district also have access to electricity. However, majority of the communities are connected to the National electricity grid. Now about 82 percent of communities in the district have access to electricity. There is currently the supply of solar lightning within the deprived communities

Health

A healthy population is needed for sustained development of the local economy. The profile of the health sector of the Asunafo South District looks at the availability of health facilities, adequacy of health personnel, common diseases (top ten diseases), child immunization coverage, and issues on family planning among others

The District Health Directorate has 23 Health facilities under its jurisdiction as shown in the table below.

OWNERSHIP	HOSPITAL	CHPS	H/CENTRES	CLINICS	M/HOMES	TOTAL
GOVERNMENT	1	15	3	0	0	19
MISSION	0	0	0	0	0	0
PRIVATE	2	1	0	0	1	4
TOTAL	3	16	3	0	1	23

The top ten most frequent occurring diseases in the District are Malaria, Upper Respiratory Tract Infections (URTI), Home Occupation Accidents are the common diseases recorded in the District

In line with the top ten reported cases in the District OPD attendance at health facilities in the District also witnessed a quantum jump between 2014 and 2017

Tertiary institution: Kwapong Nursing Training College

Education

The Assembly spends quite a high proportion of its inflows on the provision of educational infrastructure. The District has a total of about 230 educational institutions. These are made up of 87 Nurseries/Kindergarten, 87 Primary schools, 53 JHS, and 2 SHS as shown in Table 1.19. This is an improvement over the 2014 figure of 117 schools. At least about 113 more schools have been added to the total number of schools over the last four years.

Table 1.26: Number of Schools by Type of Ownership

Primary	77	10	87
JHS	50	3	53
SHS	2	0	2
Voc/Tec/Com	0	0	0
Total	207	23	230

More participation of the religious bodies in educational provision is similarly needed and must be encouraged through the offer of incentives such as free access to land and special dispensation to obtain timber from the nearby forest resources.

Table 1.30: School Enrolment by Category and Ownership

SHS	1,026	696	1,722	SHS	-	-	-
Vocational/Technical	173	84	257	Vocational	-	-	-

From Table 1.21 above, Pre-School, Primary, JHS and SHS enrolment in the District has seen a steady increase over the last for years. Total enrolment for the three levels of education is given as 7,806, 14,057, 5,108 and 1,722 as at 2017for the public schools and for that of the private are also as follows 542, 1,534 and 197 for the Pre-school, Primary and JHS respectively. This is reflected in the average school participation rate of 148% in the pre-school level and 80% at the primary level as shown in Table 1.31.

Market Centers

Commodity flow analysis is intended to establish the commercial or economic interactions within the Asunafo South District and between those outside in terms of the nature of goods and direction of flow to and from the three main periodic markets of Kukuom, Sankore and Kwapong. Goods involved are classified into agricultural and industrial.

Within the district, Kukuom, Sankore and Kwapong still serve as major periodic markets. Agricultural produce is conveyed from all places and settlements within the district to these market centers. These are made mainly of foodstuffs such as plantain, cassava, cocoyam, yam, maize, okro, pepper etc. Conversely, endogenous outflows consisting of industrial goods move from the periodic markets, especially from the Sankore market to all nooks and crannies of the district.

On the other hand, exogenous inflows into the district are made up mainly of industrial goods. Other exogenous inflows include fish products, meat and species of yam that are not readily available or produced in large quantities in the district. Exogenous outflows

from the district include agricultural goods. Both the exogenous inflows and outflows analysis shows that the major trading partners of the District in terms of directions of movements of 'exports' and 'imports' are Accra, Kumasi, Goaso, Mim, Tepa, Sunyani and Techiman. In addition, within the district, the Kukuom and Sankore markets serve as the main points of departure of goods from the district and destinations for goods arriving into the district.

From the foregoing, it is observed that goods that are 'imported' into the district are largely industrial goods attracting higher values. On the other hand, agricultural goods constitute the bulk of goods 'exported' from the district. These are usually in their raw states with less value, which do not yield much returns to the district. From this perspective, the district is bound to register deficit net trade balance. This situation accordingly calls for the setting up of agro-based industries to add value to the agricultural goods produced and exported from the district

Water

The current water delivery system in the District is a serious development challenge that requires urgent intervention.

As they say, water is life", but the problem of water in the Asunafo South District has become acute and is well known in the national level of which urgent steps, concern and support are needed by all stakeholders to reverse this trend. The presence of the Covid-19 indeed had its own effect on the District since the water systems within the District must improve drastically to help manage the fast spreading virus.

Access to food and water are fundamental human rights, which should be prioritized for all to access a healthy livelihood.

The availability of and accessibility to improved water is a crucial aspect of the health of household members. The provision and management of potable water has not been an easy task to the Assembly. The Assembly is currently faced with a number of challenges in its quest to make water accessible to the people. In an effort to improve people's access to potable water, the Assembly has collaborated with a number of development partners in the provision of potable water in the District. These partners include the Ghana Water

Company Limited (GWCL) and Community Water and Sanitation Agency (CWSA) among others

Tourism

Tourism in the Asunafo South District is not well developed. There are no vibrant tourist activities going on in the District as there are no well-developed and interesting tourist sites. Also, there are no support services to propel tourism in the District since the hotel and hospitality industry is underdeveloped. Throughout the District, only Sankore has a guest house. There are no hotels and restaurants that can support the tourism sector in the District. However, the potential for eco-tourism exists as there are wildlife, forest cover and attractive mountainous features at Abuom. There is therefore the need to identify and develop tourist sites, packages and market cultural festivals in a bid to boost tourism in the District. Incentive packages to attract potential investors and public private partnership arrangements are areas that need to be further explored by the District assembly in a bid to promote tourism in the District.

Environment

The people derive mainly their livelihoods from the environment, thus, the land for farming, animal husbandry and the settlements. Comparing the district's population and its daily socio-economic requirement, much pressure is exerted on the scarce natural resources on meeting the growing demands. Population and development are inextricably related as changes in one extreme invariably affect the other. Every action of humanity has some environmental impact (either negative or positive). Pollution is a result of human activities in the environment. The main pollution is in the land, water and air. Bushfire has become a prominent annual ritual in all parts of the District. This is attributed to hunting of games, farming and the natural habit of setting fire to the bush. Bush fire in particular has contributed greatly to the reduction of the forest cover in the District. In addition to its effect on vegetation, the rampant bush burning in the area is causing air pollution. Although the degree and effect of air pollution cannot easily be ascertained, there is the need to show concern for its potential damage to the environment.

Charcoal production in the Asunafo South District is widespread and unregulated. Vast areas have been completely stripped of trees for wood fuel in the form of charcoal. Charcoal production has been identified as the leading cause of deforestation in the District. Although charcoal production is on the increase, there are no concrete plans to make it a sustainable environmental and economic activity.

Logging is also pronounced in the District. Though the Forestry Commission in the District regulates the exploitation of timber in the District, it has not been able to effectively monitor the quotas given to the Timber Firms. Moreover, illegal chainsaw operations are still widespread and are taking a much heavier toll on tree species in the District. Despite its short-term economic gains, logging has the potential of jeopardizing the environment and long-term productivity

Sanitation and Waste Management

Waste management in the District is far from desirable. The disposal of both solid and liquid waste, including human excreta, storm water and household refuse are poorly carried out in the District. Though some households bury or burn their refuse, the majority use the open surface system for their waste disposal. It is a general practice for people in most communities to defecate in the bush or openly (free range), mainly due to lack of access to convenient toilet facilities.

Where either households or the DA provides toilet facilities, there is, however, a problem of timely and regular disposal of human excreta due to the unreliability of the only septic emptier in the District.

Most communities in the District do not also have any proper drainage system. The inadequacy of proper household drains has led to the accumulation of stagnant water with offensive smells in and around residential areas. Drains are choked with filth giving rise to mosquito breeding especially during the rainy season.

• Industry, Commerce and Service

a. Small and Medium Enterprises (SMEs)

SMEs in the District rank second in terms of contributions to household income. Most of the SMEs are in trading, service provision and processing. These are concentrated in the major settlements of Sankore, Kwapong, and Kukuom the District capital. Food and nonfood items dominate the trading sector while hairdressing and tailoring are common in the services sector. Trading in food items is popular in the villages as farmer population is higher in those areas. Almost all SMEs in the District are sole proprietorships. Only a few of the SMEs like drug stores and chemical shops are registered. About 95% of SMEs are not registered, which invariably affects local revenue mobilization. The District must therefore take the initiative to register all SMEs in the District, and build a comprehensive database of all SMEs as a means of improving local revenue generation.

b. Telecommunications

Many communities in the District do not have access to telecommunication facilities since there are no fixed lines or mobile phone coverage. At the moment mobile phone companies including Vodafone, MTN, Tigo, Airtel and Glo are present and operational in the District. But operations of the mobile phone companies do not cover every part of the District. Expansion in the present telecom coverage is therefore needed to improve communication among residents within and beyond the District. Expansion and improvements in mobile telephony in the District can also facilitate and improve trading activities. This is because potential sellers and buyers of farm produce and manufactured goods will at least have basic idea on the prevailing market prices of tradable goods. Access to reliable communication is also expected to cut down travels and for that matter travel cost that are incurred by residents in the District.

c. INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)

Information and Communication Technologies (ICT) have become important tools in today's knowledge-based information society and economy. This role of ICT in an emerging economy such as Ghana's, has been widely recognized at various levels. The recognition is reflected in actions such as the development and deployment of a national

ICT infrastructure, institutional and regulatory framework for managing the sector, promoting the use of ICT in all sectors of the economy in the District.

Data plays a critical role in the day-to-day operations of organizations and companies. Data management is therefore important in the progress of such organizations. ICT as an important tool for management of information will enhance efficiency and effectiveness by providing a much easier way to acquire, analyze, store and retrieve information as and when it is needed.

The Asunafo South District has an ICT center which enables people to have access to internet. Aside from that, there are a few café operators who also provide internet service. The two Senior High Schools in the District have been provided with computer labs where students can access the internet for research purposes. This is aimed at enhancing ICT literacy among the populace.

The role of ICT in the Asunafo South District will turn the fortunes of the District if people develop keen interest in it and can have access.

Key Issues/Challenges

- Weak involvement and participation of citizenry in planning and budgeting
- Inadequate school infrastructure
- Gaps in physical access to health infrastructure and services
- Inadequate coverage and targeting of social protection programmes for children
- Haphazard physical development
- Poor road network
- o Inadequate office and staff accommodation
- Inadequate logistics means of transport
- o Low entrepreneurial culture among the youth
- Limited access to credit for MSMEs
- Seasonal variability in food supply and prices

- Increasing demand for household water supply
- Inadequate access to improved toilet facility
- o Inadequate revenue mobilization
- Poor sanitation and waste management
- Deforestation

Revenue Mobilization Strategies

In order to meet our revenue target for the year and the subsequent projections, the Assembly had put a number of measure including the revenue improvement action plan. We believe the implementation of the strategies will help realize the targeted revenue for the Assembly

- Deepen participatory processes for local revenue budget;
- Develop an implemental IGF strategy
- Support for Realistic Projection; establishment of database
- Review and strict monitoring of outsourced agents;
- Electronic systems development for IGF mobilization;
- Revenue collection improvement (low hanging fruits);
- Training of revenue collectors;
- Improvements in education and engagement of rate payers;
- Sanctioning of defaulters etc.;
- Increasing the non-tax revenue and property rate bases i.e. identify eligible tax/rates and fee payers that are not currently paying, identify and improve nonperforming sources or increase rates;
- Improving taxpayer compliance i.e. audit, penalties, enforcement and monitoring mechanisms; and
- Ensuring greater citizen participation in ASDA budgeting and revenue mobilization efforts to increase voluntary compliance.

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

Budget Programme Objectives

The objectives of this program are as follows:

- To provide support services, effective and efficient general administration and organization of the Municipal Assembly;
- To ensure sound financial management of the Assembly's resources.
- To coordinate the development planning and budgeting functions of the Assembly

Budget Programme Description

The programme seeks to perform the core functions of ensuring good governance and balanced development of the Municipality through the formulation and implementation of policies, planning, coordination, monitoring and evaluation in local governance.

The Programme is being implemented and delivered through the offices of the Central Administration and Finance Departments. The various units involved in the delivery of the programme include General Administration, Budget, Planning, Accounts Office, Procurement, Human Resource, Internal Audit, statistics department and Records.

A total staff strength of Ninety-three (93) is involved in the delivery of the programme. They include Administrators, Budget Analysts, Accountants, Planning Officers, Revenue Officers, and other support staff (i.e. Executive officers, and drivers). The Programme is being funded through the Assembly's Composite Budget with DACF, DDF, GOG Transfers, Internally Generated Funds of the Assembly and Development Partners support.

The challenges include delay in releasing funds to deliver the programme, inadequate motorbikes, cars for revenue mobilization, inadequate knowledge on new planning and budgeting reforms by the decentralized departments, political interference in discharging of duties

SUB-PROGRAMME 1.1 General Administration

BUDGET SUB-PROGRAMME OBJECTIVE

The objectives of the General Administration sub program are;

- Ensure full political, administrative and fiscal decentralization
- To facilitate and coordinate activities of department of the Assembly
- To ensure the effective functioning of all the sub-structures to deepen the decentralization process

Budget Sub- Programme Description

The general Administration sub-program oversees and manages the support functions for the Asunafo South District Assembly. The sub-program is mainly responsible for coordinating activities of decentralized departments and providing support services. The sub-program provides transportation, records, security, public relations, adequate office equipment, stationery, and other supporting logistics.

The core function of the General Administration unit is to facilitate the Assembly's activities with the various departments, quasi-institution, and traditional authorities. Beneficiaries of the sub program are the staff of the Assembly and the public. Funding for the sub-program is from IGF, GoG and DACF

The challenges include delay in releasing funds to deliver the programme.

A total staff turnover of Sixty (60) is expected to ensure the implementation of this sub-program.

SUB-PROGRAMME 1.2 Finance and Audit

Budget Sub-Programme Objective

- To ensure sound financial management of the Assembly's resources.
- To ensure timely disbursement of funds and submission of financial reports.
- To ensure the mobilization of all available revenues for effective service delivery practice

Budget Sub- Programme Description

The sub-program seeks to ensure effective and efficient resource mobilization and management. The Finance and Revenue mobilization sub-program comprises of two units namely, the Accounts/Treasury, and internal audit. Each Unit has specific rolls they play in delivering the said outputs for the sub-program. The account unit collects records and summarizes financial transactions into financial statements and reports to assist management and other stakeholders in decision-making. They also receive, keep safe custody and disburse public funds. This unit together with the Budget unit sees to the payment of expenditures within the District.

The internal audit unit ensures that payment vouchers submitted to the treasury are duly registered and checking all supporting documents, to ensure they are complete before payments are effected. This is to strengthen the control mechanisms of the Assembly. This major activity helps to ensure reconciliations and helps in providing accurate information during the preparation of monthly financial statement, which is later submitted for further actions. Forty officers (40), comprising 1 Finance Officer, 3 Assistant Accountants,1 Senior Internal Auditor,1 Internal Auditor, 5 Assistant Internal Auditors, 2 Audit Trainee, 1 Senior Revenue Superintendent,3 Revenue Superintendent, 5 Higher Revenue Inspector, 4 Revenue Inspector and 14 IGF collectors proficiently man the subprogram. Funding for the Finance sub-program is from Internally Generated Revenue (IGF), GoG and DACF.

The key Challenges to be encountered in delivering this sub-program: Inadequate motorbikes, car for revenue mobilization, inadequate office space for accounts officers, inadequate data on ratable items, inadequate staffing and inadequate logistics for revenue mobilization and public sensitization.

SUB-PROGRAMME 1.3 Human Resource Management Budget Sub-Programme Objective

The objectives of the sub-programme are to;

- To achieve institutional performance goals that are linked to the individual and team performance objectives, as the basis for measuring performance results and merit.
- To provide Human Resource Planning and Development of the Assembly.
- To develop capacity of staff to deliver quality services.

BUDGET SUB- PROGRAMME DESCRIPTION

The Human Resource Management seeks to improve the departments, division and unit's decision making and build capacity of the manpower which will ultimately improve the workforce and organizational effectiveness. In carrying out this sub-programme it is expected that productivity would be enhanced at the Assembly as well as decision making in the management of Human Resource, major services and operations delivered by the sub-programme include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies at the District.

The human resource unit has three officers comprising of one Human Resource Officer, Assistant Human Resource Officer and 1 Chief Personnel Officer. Funds to deliver the human resource sub-Programme include GOG, IGF, DACF and DDF capacity building. The main challenge faced in the delivery of this sub-Programme is the weak collaboration in human resource planning and management with key stakeholders as well as Logistical Constraints for effective monitoring.

PROGRAMME 2: SOCIAL SERVICES DELIVERY

BUDGET PROGRAMME OBJECTIVES

- Enhance inclusive & equitable access & participation in education at all levels
- Ensure sustainable, equitable and easily accessible healthcare services
- Establish an effective and efficient social protection system.
- Sensitization of Infant birth registration and death registration

BUDGET PROGRAMME DESCRIPTION

Social Service Delivery is one of the key Programmes of the Assembly. This Programme seeks to take an integrated and holistic approach to the development of the District and the Nation as a whole. There are five sub-Programmes under this Programme namely: Education, Youth and sports services public health services and management, social Welfare and Community Development, birth and death registration services and environmental health and sanitation services.

The education, Youth and Sport Department of the Assembly is responsible for preschool, special school, basic education, youth and sports, development or organization and library services in the district. The departments therefore assist the Assembly in the formulation and implementation of programmes in such areas of education and youth development.

The Department of Health, in collaboration with other departments, assist the Assembly to deliver context specific health care interventions by providing accessible, cost effective and efficient health service at the primary and secondary care levels in accordance with approved national policies by ensuring prudent management of resources.

The Social Welfare and Community Development Department assists the Assembly to formulate and implement social welfare and community development policies within the framework of national policy.

Extreme poverty continues to work against the economic gains that Ghana has chalked over the past two decades. It is estimated that about 10% of Ghanaians live under

extreme poverty conditions. This means that they are neither able to afford daily subsistence requirements nor afford education and basic health for themselves and their children.

This phenomenon perpetuates generational poverty. To ensure equitable distribution of national resources and mainstreaming of the extremely poor, the Government developed and started implementing the National Social Protection Strategy (NSPS) in 2007. In Asunafo South District, 200 households are benefiting from conditional and unconditional cash transfer under the Livelihood Empowerment against Poverty (LEAP) Programme; a component of the NSPS. Extremely poor Older Persons above 65 years have been enrolled onto the LEAP and are entitled to unconditional cash transfer.

The total number of personnel under this budget Programme is Eight (8)

The programme is to be funded with transfers from the Central Government (sector specific transfers (GOG), District Assembly Common Fund (DACF), Donor funds, District Development Facility (DDF) and the Internally Generated fund (IGF).

SUB-PROGRAMME 2.1 Education, Youth and Sports Services Budget Sub-Programme Objective

- To ensure inclusive and equitable access to education at all levels
- To formulate and implement policies on Education in the District within the framework of National Policies and guidelines.
- Ensuring teacher development, deployment and supervision at the basic level; and
- Promoting entrepreneurship among the youth

BUDGET SUB- PROGRAMME DESCRIPTION

SUB-PROGRAMME 2.5 Environmental Health and Sanitation Services

Budget Sub-Programme Objective

- Improve access to sanitation
- Manage waste, reduce pollution and noise
- Accelerate the provision of improving environmental sanitation
- To formulate, plan and implement Municipal environmental health policies within the framework of national health policies and guidelines

BUDGET PROGRAMME DESCRIPTION

The sub programme is carried out by the Environmental Health Unit of the Assembly. The unit seeks to provide environmental and sanitation services within the district. The programme is to make sure of and manage the liquid and solid waste across the district.

The sub-programme is managed by twenty-two staff. The funding source for this sub-programme is the Internally Generated Fund, District Development Facility, and District Assemblies' Common Fund. The public is the beneficiary of the environmental health and sanitation services sub programme.

A total of 32 officers would be carrying out this sub-programme

The challenges for the sub programme are apathy on the part of citizens towards improved sanitation, inadequate funding, delay and untimely release of funds from central government, inadequate staffing levels, inadequate office space, inadequate equipment and logistics.

PROGRAMME 3: INFRASTRUCTURE DELIVERY AND MANAGEMENT

Budget Programme Objectives

- Assist in building capacity in the District to provide quality road transport systems for the safe mobility of goods and people;
- To plan, manage and promote harmonious, sustainable and cost effective development of human settlements in accordance with sound environmental and planning principles;
- To provide socioeconomic infrastructure for the district

BUDGET PROGRAMME DESCRIPTION

The programme is responsible for the provision of physical and socioeconomic infrastructure while promoting a sustainable human settlement development on principles of efficiency, orderliness, safe and healthy growth of communities.

The various units involved with the delivery of the program include the Physical Planning Department and district Works Department.

The sub-programme seeks to provide quality infrastructure development and also educating members with road and building regulations, It is to assist the Assembly to formulate policies on works within the framework of national policies.

Seventeen (17) officers would be carrying out this programme, nine officers, and eight physical planning officers.

The programme is to be funded with GOG, DACF, DACF-RFG and IGF.

The beneficiaries of this programme are Road Users, Estate Developers, Traditional Authorities, Landowners, Contractors, Public Infrastructure users and the public.

Key Challenges include lack of logistic support like fuel for monitoring, computers, stationaries inadequate motorbikes and vehicles for field staff.

SUB-PROGRAMME 3.1 Physical and Spatial Planning Development BUDGET SUB-PROGRAMME OBJECTIVE

- To facilitate the implementation of such polices in relation to physical planning, land use and development within the framework of national polices.
- To facilitate Street Naming and Property Addressing System
- To plan, manage and promote harmonious, sustainable and cost-effective development of human settlements in accordance with sound environmental and planning principles

BUDGET SUB-PROGRAMME DESCRIPTION

This Sub-programme seeks to ensure planning, management, sustainable and cost-effective development of human settlements in accordance with sound environmental and planning principles. The sub-programme seeks to co-ordinate activities and projects of departments and other agencies including non-governmental organizations to ensure compliance with planning standards. It also focuses on the landscaping and beautification of the District Specific functions of the sub-programme include:

- Preparation of physical plans as a guide for the formulation of development policies and decisions and to design projects in the district.
- Identify problems concerning the development of land and its social, environmental and economic implications.
- Advice on setting out approved plans for future development of land at the district level.
- Advice on preparation of structures for towns and villages within the district;
- Assist in offering professional advice to aggrieved people on appeals and petitions on decisions made on their building.
- Facilitate consultation, co-ordination and harmonization of developmental decisions into a physical development plan.
- Assist to provide the layout for buildings for improved housing layout and settlement;
- Ensure the prohibition of the construction of new buildings unless building plans are submitted have been approved by the Assembly.

- Advise the Assembly on the sitting of billboards, masts and ensure compliance with the decisions of the Assembly;
- Advise on the acquisition of landed property in the public interest; and
- Undertake street naming, numbering of house and related issues.

The unit that would deliver the sub- programme is the physical planning department with a total number of eight (8) Technical Officer.

The sub-programme is funded through the DACF, GOG and the IGF. The larger community and other departments of the Assembly stand to benefit greatly in this sub-programme.

The main challenge confronting the sub-Programme is the lack of staff to operate and supervise the implementation of the programme and projects under the sub-programme. Inadequate resources, both financial and human resources, to prepare base maps. Inadequate office space and untimely releases of funds.

SUB-PROGRAMME 3.2 Public Works, Rural Housing and Water Management

BUDGET SUB-PROGRAMME OBJECTIVE

- The objectives of this sub program are to;
- Facilitate sustainable and resilient infrastructure development & maintenance, and basic service provision.
- Implement integrated water resources management
- To implement development programmes to enhance rural transport through improved feeder roads and farm to market road network.

BUDGET SUB- PROGRAMME DESCRIPTION

The sub-programme is tasked with the responsibility of developing and implementing appropriate strategies and programmes that aims to improve the living conditions of rural dwellers through efficient infrastructures relative to feeder roads, housing and water supply. The department of Works is responsible for delivering the sub-programme.

The sub-program operations include.

Facilitating the implementation of policies on work and report to the Assembly Assisting in preparing tender documents for all civil works projects to be undertaken by the Assembly through contracts or community initiated projects.

Facilitating the construction, repair and maintenance of public buildings and drains along any streets in the major settlements in the district.

Facilitating the provision of adequate and wholesome supply of potable water for the entire district

Assisting in the inspection of projects undertaken by the District Assembly with relevant Departments of the Assembly.

Provide technical and engineering assistance on works undertaken by the Assembly.

The Public Works Service sub programme is carried out with a total staff strength of nine

(9). The beneficiaries of this sub programme are property owners and the general public.

The sources of funds for this sub programme are IGF, DACF, GOG and DACF-RFG.

Key challenges of the department include limited capacity (water and sanitation engineers, hydro geologists) to effectively deliver water and sanitation projects, difficult hydro-geological terrain results in low success rate in borehole drilling, inadequate

personnel and logistics (especially motorbikes) for monitoring of operation and maintenance of existing systems and other infrastructure.

Inadequate and late release of funds. This leads to wrong timing of operations and projects thereby affecting implementation of projects and operations.

PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

BUDGET PROGRAMME OBJECTIVES

To plan and implement programmes to prevent and/or mitigate disaster in the District

To improve the livelihood of the poor and vulnerable in rural communities through

effective disaster management, social mobilization and income generation.

Conserve natural resources especially the forest reserves

BUDGET PROGRAMME DESCRIPTION

The programme will deliver the following major services:

Organize public disaster education campaign programmes to: create and sustain awareness of hazards of disaster, and emphasize the role of the individual in the prevention of disaster;

Education and training of volunteers to fight fires including bush fires, or take measures to manage the aftereffects of natural disasters;

Assist in post-emergency rehabilitation and reconstruction efforts in the event of disasters.

In consultation and collaboration with appropriate agencies, identify disaster zones and take necessary steps to; educate people within the areas, and prevent development activities which may give rise to disasters in the area;

Post disaster assessment to determine the extent of damage and needs of the disaster area.

Co-ordinate the receiving, management and supervision of the distribution of relief items in the district:

Inspect and offer technical advice on the importance of fire extinguishers.

Conserve natural resources especially the forest reserves

The National Disaster Management Organization (NADMO) and Forestry Commission will be responsible in executing the programme.

This programme is undertaken by 17 staff in delivering the sub-programme, funds would be sourced from IGF and DACF and the public are the beneficiaries of this programme

SUB-PROGRAMME 5.1 Disaster Prevention and Management BUDGET SUB-PROGRAMME OBJECTIVE

- To enhance the capacity of society to prevent and manage disasters
- To improve the livelihood of the poor and vulnerable in rural communities through effective disaster management, social mobilization and income generation.

Budget Sub- Programme Description

The sub-programme seeks to promote disaster risk reduction as well as climate change risk management. It is also to strengthen Disaster Prevention and Respond mechanisms of the District. The sub-programme is delivered through public campaigns and sensitizations; assisting in post-emergency rehabilitation and reconstruction of efforts; provision of first line response in times of disaster and; formation and training of community-based disaster volunteers.

The Disaster Management and Prevention Department is responsible for executing the sub-programme. The larger public at the community levels are the beneficiaries of this sub-programme. Funds will be sourced from DACF and Central Government supports.

Challenges which confront the delivery of this sub-programme are lack of adequate funding, unattractive allowances and conditions of work. In all, 16 NADMO officers will carry out the sub-programme.

SUB-PROGRAMME 5.2 Natural Resources Conservation and Management BUDGET SUB-PROGRAMME OBJECTIVE

The objective of this sub program is to

To plan and implement programmes to prevent and/or mitigate disaster in the District Conserve natural resources especially the forest reserves

BUDGET SUB PROGRAMME DESCRIPTION

This Sub-Programme aims at the conservation of natural resources to make them useful for future generations. It focuses on activities that reverse degraded natural resources like planting and nurturing trees to replace lost ones.

The sub programme is carried out by the forest services division. The beneficiaries of this sub programme are the general public.
